

PWA "School" Open To Teach U. S. Spend How to Dispose of Slice

Regional Field Representative From Washington Outlines Program of Three-Day Course in New York City.

STATE MEETINGS

Local Officials To Hear of Plan; L. W. Herzog Outlines Wage Set-up for State.

New York, July 1 (AP)—The procedure in setting up work relief projects and carrying them from the local city and town government's came up for discussion today at the "school" being conducted for public works administrators of eight northeastern states and the District of Columbia.

The purpose of the "school," a three day training course, is to teach the administrators how to obtain and spend their slices of the President's \$4,800,000,000 work relief funds.

The first session opened yesterday as Ray C. Branlon of Washington, regional field representative of Harry L. Hopkins, works progress administrator, outlined the program of the course.

Branlon said the amount of money allotted to each state depends upon the number of employables now unemployed in that state with the number of Civilian Conservation camps deducted. The amount of money to be spent on one family has been limited by President Roosevelt to \$1,143.

A general statement of the objectives and principles behind the allocation of the huge work funds opens today's programs. Branlon plans to explain that primarily, the program is reduced to the fact that the president wants to get 3,500,000 persons off relief.

Included on the program is a general discussion of the labor supply available for projects and an explanation of the functions of the treasury with the P. W. A.

Following the three-day conference, the administrators will call state meetings to explain the setup to local officials, Branlon said.

After yesterday's meeting, Lester W. Herzog, administrator for New York state, outlined the wage setup here.

New projects which the works progress administrator will administer, he said, would originate as at present with government departments. While wages under the new scheme will range from \$55 to \$94 a month in counties with more than 100,000 population, in some of the rural counties they will be lower.

Herzog said.

In the cities the wage scales run \$55 a month for unskilled labor, \$65 for semi-skilled, \$85 for skilled, and \$94 for technical and professional help, he explained.

In counties between 50,000 and 100,000 in population, the wages will run through the four classifications at \$52, \$60, \$75 and \$83. In counties from 25,000 and 50,000 in population, the range will be \$48, \$55, \$70, and \$77, Herzog stated.

Wage scales in counties from 5,000 to 25,000 population will be \$44, \$50, \$62 and \$68. Counties with fewer than 5,000 persons have a scale of \$40 to \$60, he said.

BOW AND ARROW SUPREMACY GOES TO THE WHITE MAN

Buffalo, N. Y., July 1 (AP)—The question of supremacy with the bow and arrow was all up in the air again today because five Seneca braves couldn't better the shots of five white men.

Only a month ago, the Indians thought they settled the matter once and for all as they soundly trounced a group of whites who invaded the Tonawanda reservation to compete against the braves. The city archers, all from Buffalo, scored only one point on that occasion.

It was an entirely different story yesterday, however, as they met on neutral ground in a return match about 100 yards from the reservation. When it was all over the white had not only won by eight points but had walked away with individual honors. "Let's blame it on decent efforts of civilization, or something," dolefully observed one young braver. "But what could one expect from a bunch of Indians with names like Russell Hill, Jesse Compander, Bob Moses, Lou Davis and Ed Abrams? It sounds like the American League to me."

Visit Her Mother.

New York, July 1 (AP)—Little Gloria Vanderbilt packed her bags today for a month's visit with her mother, Mrs. Gloria Morgan Vanderbilt. Under the terms of the decision by Supreme Court Justice John F. O'Connor, the child herself will be allowed to stay with her mother throughout July at Mrs. Vanderbilt's summer estate at Smithtown, L. I. Her aunt, Mrs. Harry Payne Whitney, with whom she has been living five days a week has her for the month of August.

Record Parachute Climb.

Leningrad, July 1 (AP)—Miss Tamara Kaulova, 21-year-old physical culture student, today claimed a world record for women parachutists. Her jump, estimated at 25,424 ft., from an airplane without oxygen apparatus.

Volunteer Firemen Hear Cornwell And Epstein, Then Oppose Charter

Committee Bases Its Opposition on Section of Charter Relating to the Fire Companies—Report Setting Forth Reasons For Opposing Charter and the Resolution Adopted.

Government Figures On 8 Billion Spending

Washington, July 1 (AP)—The federal government started a new fiscal year today figuring on spending \$8,520,000,000, of which \$4,582,000,000 would be used for "recovery and relief."

The estimates are President Roosevelt's. He expects the treasury to collect \$3,991,000,000. That would mean a deficit of \$4,528,000,000 for the year.

The public debt as the 1935 fiscal year ended last night amounted to more than \$28,665,000,000. It had not, however, reached the \$31,000,000,000 total the president figured on more than a year ago.

Should the government spend \$8,520,000,000 this year a new peace-time record for a single year would be established. It would jump the peak set last year—which was more than \$7,258,217,000.

R. E. Craft Company Has Taken Over the H. B. Merritt Store

When the Harry B. Merritt Market at Washington avenue and Hurley avenue opened this morning it was under the management of the R. E. Craft Company, operators of The Great Bull Market on Smith avenue this city and also a market in Poughkeepsie and a proposed market in the old armory building in Newburgh. The negotiations which have been going on for some time for the sale of the Harry B. Merritt market were finally concluded Saturday afternoon and today Mr. and Mrs. Merritt, who were the originators of the "Kash and Kary" system in Kingston, were enjoying the quiet of retired life. Both Mr. and Mrs. Merritt were being swamped with congratulations on their retirement from active business and at the same time there were many expressions of regret that their presence would no longer be identified with the business which they had built up to such large proportions over a period of years.

Several weeks ago negotiations were entered into between John W. Matthews and Harry B. Merritt and his wife and for the past several weeks there have been numerous rumors as to what would take place at the Merritt market. These rumors were set to rest on Saturday when the market was taken over by the R. E. Craft Company.

Raymond E. Craft was at the place of business this morning and business was going on as usual under his direction with practically the same staff of employees as has been at the market for several years. Charles F. Lieske will be general manager of the Merritt market. Joseph P. Schatzel will remain as head of the meat department; Russell Howard will head the grocery department and William Kunewald will head the fruit and vegetable department. Other employees of the Merritt establishment will remain in their respective positions.

For the present at least the policy of Mr. and Mrs. Merritt will remain in force and no changes will be made for the present in the method of merchandising.

Following the signing of the necessary papers to transfer on Saturday a large force of men were engaged in making a complete check-up on stock so that the store would be ready to open for business as usual this morning.

The name of Harry B. Merritt will be retained and while some improvements may be made during the summer there will be no change in the general set-up of the store.

The R. E. Craft Company was organized several years ago and The Great Bull Market, a self-service store carrying every home need under one roof, was opened on Smith avenue. This business under the direction of Ray Craft and his father, Eugene Craft, was immediately successful. In fact the idea was so well received by customers that later a similar market was opened by the company in Poughkeepsie and this spring a new one was entered into whereby the company will open this fall a similar market in the old armory building in Newburgh. The combined purchasing power of this organization is large and the savings that made it possible along to the consumer.

With two markets now in Kingston, one serving the upper section of the city, and a second serving the central and lower sections of town, the R. E. Craft Company is in a position to give even better service than was possible with only one market centrally located.

Parade Demonstrations.

Venue—A series of incidents against the Austrian Heimwehr aroused the Fascist home guard followers of Prince Ernst von Starheim to demonstrations.

With Aldermen Eugene Cornwell and Joseph Epstein at bat for the charter revision oppositionists, a committee chosen to represent the various volunteer fire organizations of the city voted Friday evening to oppose enactment of the proposed charter and to work in every legal way to prevent its passing. The action followed a second hearing by the representative committee, the first having heard Corporation Council Matthew V. Cahill speak in behalf of the proposed charter, a meeting at which no action was taken.

Alderman Epstein, an original member of the charter revision committee, refused to sign the report of the charter committee recommending enactment of the document to the common council, and resigned when certain portions of the document did not meet with his approval. Alderman Cornwell voted in favor of submitting the charter to the people, but said this morning that he had never favored passage of the proposed charter. He said that a conference with an "educated person" had resulted in his vote of approval when the matter came before the common council.

The resolution adopted by the volunteer firemen's representative committee based its adverse action on the fine record of the department as it was now conducted and voiced the opinion that the proposed change would result in an impaired service to the community. Study of the resolution and investigation of the benefits received by the volunteer firemen brought to light that the volunteer fire companies received an allotment of \$1,500 in the annual budget of the city, and two per cent of insurance taxes on foreign corporations. This tax money is supposed to be used to further fireman's protection in the city and for welfare work among firemen who have suffered injuries while on duty. The budget provision is used up as the city pays the bills for light, taxes, etc., on the various volunteer fire houses.

The firemen did not consider any provisions of the proposed charter except those relating directly to the fire companies, and based their action purely on the provisions dealing with fire service to the community, according to Alderman Cornwell.

The report rejecting the new charter was adopted unanimously by the members of the committee, and the report was adopted by the Veterans Association. Individual fire companies have not yet voted on the action of the delegates to the special meetings, but it is believed that the action of the delegates may be accepted as the best action from the viewpoint of the firemen.

The report, a lengthy document, sets forth the reasons for opposing the new charter, and the resolution of the Veterans Volunteer Firemen's Association, both of which were adopted, are as follows:

To the Veterans Volunteer Firemen's Association: Gentlemen: The committee appointed by your association to examine the proposed new charter for the City of Kingston respectfully reports as follows:

1. That, in pursuance of your instructions, your committee made a careful examination of the existing charter of the City of Kingston and of the proposed new charter, so far as the same bears upon and relates to the Fire Department. Volunteer firemen, and paid firemen, were held by your committee at which the provisions of the existing and proposed charters, in relation to the Fire Department, were considered and discussed in detail. That at several of said meetings your committee was attended by various persons, duly invited thereto, who presented arguments for and against the proposed new charter.

That among the persons attending before your committee was the representative of the mayor, selected by him, who was given full opportunity to present any and all matters in respect to the existing charter and the proposed new charter, as the provisions thereof affected the Fire Department.

2. The existing charter of the city, under Sections 106 to 113-C, inclusive, contains a complete system for the operation, management and control of the Fire Department, both Volunteer and Paid.

The existing charter, in the sections noted, contains the following salient provisions:

Continues the Board of Fire Commissioners composed of three members appointed by the mayor for fixed terms of three years each:

Appointment of fire chief, deputy fire chief, firemen and callmen by said board:

Preference for volunteer firemen in appointments to paid positions in the Fire Department:

Fixing of compensation for officers and members of the Fire Department by said board:

Power and authority in said board to organize and subsidize companies:

Power and authority in said board to make all rules, regulations and ordinances necessary for the government and control of the Fire Department:

Power and authority in said board to hear all complaints against officers and members of the Fire Department and determine the same.

Power and authority to settle all disputes.

State Scotland Yard Captures Greenville Butcher as Glenn Slayer

Boy, 19, Makes Alleged Confession After Drinking Diluted Poison in Weak Suicide Attempt; Arraignment Tuesday.

FATHER FOR JUSTICE

Youth Tells of Criminally Attacking Child and Killing Her for Fear She Would Tell.

ALFRED E. VOLCKMANN

Greenville, N. Y., July 1 (AP)—The state Scotland Yard wrote "solved" across its first major case, the "thrill" slaying of Helen Glenn—as sorrowing parents prepared today to bury the nine-year-old victim.

In the Greene County Hospital is Alfred E. Volckmann, 19-year-old butcher boy, who, Lieut. Gary Sager of the Yard and District Attorney John C. Welch said, confessed he viciously attacked and killed the little girl.

Volckmann, who played the violin in the Rev. Ernest Glenn's church, is recovering from the effects of diluted poison, taken after he realized the enormity of his crime. A heavy guard remains at his bedside and he will be released tomorrow to face arraignment on murder charges.

Identifies Knife.

Yesterday, as a radio played loudly by his bedside, the lad identified the knife used in the slaying, coupling his remarks with a question concerning funeral services for Helen.

Told they would be held today, he said:

"I'm sorry I can't be there."

The Yard, new anti-crime unit of the state police, functioned with the precision of smoothness of its British namesake in its investigation of "the worst crime in the history" of this Catskill foothills country.

Within a few hours after the girl's mutilated body was found in an isolated swamp last Friday they had Volckmann in custody. Suspicion was directed toward him after he told Lieut. Sager and Sergeant J. Walter Wheeler he was the last person to see Helen alive. He was finally tripped-up, the officers said, by his statement that his butcher shop was open all last Wednesday evening when young Helen disappeared.

Troopers later found four witnesses who said the shop was closed for more than an hour.

He was released after questioning but was picked up again Saturday morning with his father's consent. The father, an accountant in a woolen importing firm, said he was worried about "lynching rumors."

Twelve more hours of questioning and then came the announcement of the "full and detailed" confession.

Admits Luring Child

The lad was quoted by Yard men as admitting he lured the little girl to his living quarters above the store with lollipops. According to the confession, he pervertedly attacked her and left her unconscious form tied to the bed as he re-opened the store.

Mussolini Refused An Offer of British Holding To End Ethiopian Strife

Capt. Anthony Eden Reveals Fact to House of Commons and Says He Did His Very Utmost in the Affair.

SILENT ON FUTURE

Only Concession British Asked Was Grazing Rights for Tribes in Such Territory.

London, July 1 (AP)—Capt. Anthony Eden revealed to the House of Commons today that Premier Mussolini of Italy had refused an offer by Great Britain to give Ethiopia a slice of British territory in an effort to facilitate a final settlement of the dispute between Ethiopia and Italy.

The minister for League of Nations Relations, recently returned from conversations in Rome and Paris, was heard by packed galleries.

Capt. Eden told the legislators he did his utmost to interest in peace in the British proposal for a peaceful solution of the Italo-Ethiopian dispute and greatly regretted that his suggestion did not recommend itself to Mussolini.

Replying to a question by George Lansbury, Labor Party member, as to the purpose of his trip, Eden gave a long explanation but did not reveal what future course might be taken in the Italo-Ethiopian affair.

He explained that the British proposal to Mussolini was that the British government should offer a strip of territory in British Somaliland to Ethiopia, giving that nation access to the sea. This, he said, was intended to facilitate such territorial and economic concessions from Ethiopia to Italy as might be involved in an agreed settlement.

He declared the British government did not ask concessions in return for this arrangement except grazing rights for their tribes in such territory as might be ceded to Italy.

Eden said he pointed out to Mussolini that the suggestion was not made lightly and that only the gravity of the situation could justify the cession of British territory without an equivalent return but that Mussolini expressed himself as unable to accept the proposal as a basis for the solution of the Italo-Ethiopian dispute.

He said that on his later trip to Paris, he gave Premier Pierre Laval of France an account of his conversation with Mussolini.

Eden explained that he told Mussolini of the British government's great concern over the turn events were taking and that the attitude of the British was not egotistical nor dictated for the British interests in Africa but was made because of membership in the League of Nations.

The minister said that the British foreign policy was founded upon the League and the government could not remain indifferent to events which might profoundly affect the League's future.

Marie Laval Engaged

Paris, July 1 (AP)—Marie, Marie Jose Laval, only daughter of the premier of France, is engaged to Count Rene de Chambrun, nephew of the late Nicholas Longworth and an honorary citizen of the United States as a descendant of Lafayette. News of the engagement leaked out while the couple were playing golf together. It was confirmed today by the count's mother, the Countess de Chambrun, formerly Clara Longworth of Cincinnati. A formal announcement of the betrothal was expected to be made by Premier Pierre Laval on his return from a week-end trip to his native province of Auvergne. A date for the wedding had not been set, but the countess said it would probably be in the fall. The engagement was hailed throughout France as a "love match." The young couple—Marie Laval is 23; the count, 28—have known each other for years and have been seen together frequently.

Table Rock Blast

Niagara Falls, Ontario, July 1 (AP)—Two huge dynamite blasts were set today to send 1,000 tons of rock hurtling into Niagara gorge from table rock, often called "Honey-moon Point" because of its lure to newly-weds visiting the falls. Two hundred holes have been drilled 20 feet into the ground to provide for the charges, but all were not expected to be filled with the explosive today. Blasting of the rock, a precautionary measure to prevent slides, follows the appearance of a four-inch crack in the table for a distance of several hundred feet. When completed, the cleared section will be opened to the public again to allow a close-up view of Honey-moon Falls, the Canadian cataract which Table Rock adjoins.

Treasury Receipts

Washington, July 1 (AP)—The position of the treasury on June 28 was: Receipts, \$46,016,227.82, expenditure, \$25,477,755.31, balance, \$1,258,545.44. Customs receipts for the month \$25,801,418.22. Receipts for the fiscal year (since July 1, 1934) \$42,985,495.40, expenditure, \$21,275,157.91, balance, \$21,710,337.49. Emergency expenditures, excess of expenditure, \$2,445,217,797.24, gross debt, \$24,155,551,742.52, an increase of \$28,732,229.06 over the previous day, gold assets \$2,112,295,540.40.

McCrea Calls W. L. Ferris "Liar," Questioned Anew About Dickinson Slaying

Dead Man's Identity Learned in Weird Way

Washington, July 1 (AP)—A photographic trap set to catch an ice box pilferer today produced a strange and unexpected result. It enabled police to identify a man who had been killed by a train.

Last March, Edward M. Woods of Glenn Dale, Md., decided to do something to stop frequent looting of a refrigerator which stands on his back porch.

Being an ingenious man, he rigged a contrivance which he hoped would catch the thief. It was so arranged that when the handle of the refrigerator was touched at night, a flashlight would explode, a camera lens would snap and a horn sound raucously.

A few nights later, the horn sounded. When Woods reached the porch, his quarry had fled but he had left something behind that Woods believed was better than a calling card. It was a photograph—one of the earliest in police annals. It showed a tall, lean man bending over the refrigerator, his hand on the door.

When police saw the picture, they identified the man as Alexander Marvin Page, 37-year-old Washingtonian. They said he had served in Maryland penitentiary for housebreaking and had broken parole.

Ulster Park Man Fatally Injured When Hit by Auto

John Wise, an elderly man who lives alone at Ulster Park, received injuries from which he died about an hour later when he was struck by an automobile driven by Kenneth Laske of 195 Smith avenue, Kingston. The accident happened about 11 o'clock Sunday night, on 9-W a mile south of Golden Rule Inn. Wise was walking along the highway accompanied by Agnes Lane, 35, of 473 Washington avenue, who was also injured.

The injured people were taken to the Kingston Hospital, where Wise died at midnight, among his injuries being a large hole in the back of his head. Miss Lane was severely bruised about her entire body and complained of injuries to her legs.

Laske, driver of the car and Charles Pitts of 168 Wall street, who was riding with him, told Trooper Paul Senecal, who investigated the accident, that the couple were walking directly in the center of the right hand lane on which their car was proceeding north and that they did not see them until the car was so close that it was impossible to avoid striking them.

The W. N. Conner ambulance was called, but before its arrival the injured people had been taken to the hospital in the Laske car.

Goodglass Identified.

Port Chester, N. Y., July 1 (AP)—Police here had positive identification today of the body of Joseph Pincus Goodglass, found trussed with a rope in an inlet of Long Island Sound Saturday, while New York police probed his connection with the discontinued "Hydrox Linen and Supply Company" and O'wney Madden, deposed New York beer baron. Mrs. Nettie Goodglass of 1170 Lincoln place, Brooklyn wife of the deceased man, but separated from him, she said, for 15 months prior to his being reported missing on April 15, made the identification by a wrist watch he wore and a tattoo mark of the British flag on his left arm.

LaGuardia Ouster Fails.

New York, July 1 (AP)—Mayor Fiorello LaGuardia will continue to hold office. Supreme Court Justice Salvatore A. Cotillo ruled today, when he denied an application to remove the mayor because he accepted a non-salaried post with the federal works relief advisory allotments committee. The ouster application, brought by Kingston Associates, Inc., a Brooklyn real estate firm, was based on a city charter section which forbids a city official from holding another job, either state or federal.

Public Discussion.

Washington, July 1 (AP)—Though hearings on President Roosevelt's tax-the-wealth program will not start until next Monday, public discussion of it continued today. Senator Vandenberg (R-Mich.), mentioned as a Republican presidential possibility, attacked it as a "mere sop to political statism." He said in a statement "If we are to have a new tax bill, let it be a real tax bill and not a mere political appeal to make prejudice."

Memo in the U. S.

Washington, July 1 (AP)—Thomas Mann, German novelist, says communism is coming here. Here on a visit, the author of "The Magic Mountain" said "the world is becoming communistic without being quite aware of it. Communism is in the air, whether we like it or not." He added that he personally would not be happy under such a system.

Ferris and Three Young Women Arrested at Fort Wayne Are Questioned All Day Sunday About Affair.

3 VERSIONS CONFLICT

Formal Murder Warrant Against Ferris May Be Issued Within 24 Hours.

Detroit, July 1 (AP)—William Lee Ferris, 26, called "a liar" by Prosecutor Duncan C. McCrea, underwent renewed questioning today by detectives and the prosecutor, who said they were not satisfied with his three versions of the slaying of Howard Carter Dickinson.

Ferris and the three young women arrested with him at Ft. Wayne, Ind., Saturday were questioned all day Sunday. Ferris made three separate statements and the women each made one.

Dickinson, New York attorney and nephew of Charles Evans Hughes, chief justice of the United States, was slain last week and his body was found in Rouge Park early Thursday.

He had gone for a ride Wednesday night with Ferris, who uses several aliases, and the three women. The women—Loretta and Florence Jackson, sisters, and Jean Miller, also known as Lillian Winkles—were held as material witnesses.

Prosecutor McCrea refused to put Ferris' stories in a permanent record.

"While there is no evidence to show the girls were in a plot to kill this man," the prosecutor said, "the statement of Ferris is ridiculous. Apparently robbery was the motive. But he will not admit it."

Ferris' third and last version of the slaying told how he, Dickinson and the girls had started for a ride and that he stopped the car in the park and the girls got out. They said he ordered them out, but he told authorities the girls asked him to stop.

"I heard a sound—just a soft bang," relates the last story given by Ferris as police released it. "It wasn't really a loud report at all."

"I looked back (Ferris had said he was driving and Dickinson had been in the back seat with two of the girls) and he was limp, and I just grabbed hold of his arm right away and started pulling him out."

"The gun went off again and I let go and grabbed hold of his coat and started trying to get him out that way and his coat went over his head. It came right off."

"He slid on the ground. His feet were on the running board and I reached up to get his feet off. I must have... dropped it (the coat) on the running board..."

"He didn't say anything at all. The gun was lying on the ground beside him... I picked it up and threw it into the fields."

The statement then related that Ferris and the girls, who Ferris said were hysterical, drove away and made plans to go to Chicago.

Dickinson's family said he had no firearms and was even unfamiliar with their use. The weapon has not been found.

The prosecutor said he would confront Ferris in the renewed questioning with conflicting details of his three stories and those of the girls.

The various statements said the two men and three girls had been drinking at a hotel before starting the ride and Ferris told the prosecutor "I was drunk and woozy."

"I drove out side streets to miss the traffic and to avoid the traffic cops," the prosecutor quoted Ferris as saying in his statement. "I didn't want to get stopped, we were so drunk."

Prosecutor McCrea said he believed the girls were telling the truth but he called Ferris "a liar."

Besides the latest explanation, Ferris had given the officers two others in earlier statements.

Members of the prosecutor's staff said a formal murder warrant against Ferris would be issued within 24 hours. An attempt today to obtain his release on a habeas corpus writ failed when hearing was put over for 48 hours.

Poughkeepsie Man Held.

Bronxville, N. Y., July 1 (AP)—Ernest Gildersleeve, 34, of 15 Garden street, Poughkeepsie, accused of stealing two bottles of milk early today from the shop of a drug store here, will be turned over to state police of Troop K at Rhinebeck this afternoon to face arraignment for the alleged theft of an automobile and for harboring a house in Dutchess county. An inspection of police records at Bronxville headquarters revealed that a warrant for his arrest had been issued at Rhinebeck April 8. He was turned over to first sergeant H. A. Gay of Troop K at Hawthorne, who was to escort him to Rhinebeck.

Held For Grand Jury.

Otto Bernerick of Rosendale, who was arrested Saturday morning by Trooper

FLASHES OF LIFE SKETCHED IN BRIEF

By ASSOCIATED PRESS

Double Misfortune

New York—It was a major calamity to Patrick Convey when he dropped a \$5 bill through a grating along Broadway.

He made for the nearest fire alarm box and turned in an alarm.

When the firemen came with their hooks and ladders they listened to Patrick's tale of woe and then politely said, "so what?"

Then some policemen came along and carted Patrick off to the jail.

They left the \$5 under the grating.

Try, Try again

Newark, N. J.—A safecracker broke the combination on a safe in the office of Samuel Moskowitz, tin-smith. Then he heard noises and fled. Police cars searched the neighborhood for the man in vain.

Next day, although it was Sunday, Moskowitz went to the shop to see that everything was in order. He found that the thief had returned, finished the job and escaped with \$140 in cash.

Dive

Fort Worth, Tex.—Apparently the water was plenty deep and Elmer Murray, 22, dived boldly through the inner tube a group of girls held at a lake near here.

He came up with a crushed vertebra in his neck. The girls had been sitting in shallow water.

Ripping, What?

Chicago—It took a squad of officers to rescue Policeman James H. Ryan.

Ryan was stationed as a guard to collect passes at the "showup" yesterday. A young woman dropped her purse. Ryan bent his 230 pounds to pick it up. A "zip" and Ryan knew what had happened. He backed to a wall and called for aid until comrades formed a living screen and ushered him to privacy where he waited for Mrs. Ryan to bring another pair of pants.

Army Recruiting Drive Underway

The biggest army recruiting drive since immediately after the World War will get under way today when every army post in the United States will send out selected non-commissioned officers to canvass neighboring communities for candidates to swell the ranks of the regular army from its present strength of 118,750 soldiers to the newly authorized figure of 165,000.

General Douglas MacArthur, chief of staff of the army, has explained that the additional 46,250 enlisted men to be obtained under the grant of \$20,000,000 voted by congress, will double the actual fighting strength of the army.

At the army recruiting station at No. 39 Whitehall street, Manhattan and other recruiting stations throughout New York, New Jersey, and Delaware, intensive efforts will also begin today to enlist qualified men as part of the recruiting campaign of the Second Corps Area.

Major General Dennis E. Nolan, Corps Area Commander at Governors Island, announces that 3,982 men will be sought for army units stationed in New York, New Jersey, and Delaware.

In addition, 12,986 recruits for foreign service will be enlisted within a five hundred-mile radius of New York city and after being assembled at Fort Slocum, near New Rochelle, will be shipped on army transports from the Brooklyn Army Base to Panama, Hawaii, the Philippines, and China.

WAWARSING

Wawarsing, July 1—Mrs. Roy Coustant of East Wawarsing died on Thursday in New Paltz.

Miss Janet Atkins is spending some time with her aunt, Mrs. Sidney Watson, of Ellenville.

Mr. and Mrs. Chester Gray entertained his parents, Mr. and Mrs. Aaa Gray, Miss Marie Henriksen and Frank Gray Sunday evening.

The Misses Doris and Dorothy Geary and Helen Freer spent Saturday at Orange Lake.

Gordon Churchill, Jr., spent a few days with Donald Davis at Kingston.

Mr. and Mrs. William Moore were in Kingston Saturday evening.

Miss Janet Davis of Kerhonkson visited her aunt, Miss Anna Dowling, last week.

Mrs. William Dunn entertained Mrs. Allen Townsend, Jr., Thursday evening.

Miss Bernice Moore entertained the members of the Epworth League Thursday evening.

Mrs. Harriet Morely, William Dunn and daughter, Mildred, spent Sunday with his mother, Mrs. Lucy Wells, of Cherrytown.

Mr. and Mrs. John Meagher, the Misses Anna Gray and Nora Daley of Brooklyn, Mr. and Mrs. Albert Wiese, Mr. and Mrs. Warren Gillespie, Mr. and Mrs. Lacey Smith, Miss Tina Stahl and Miss Demarest were dinner guests of Evelyn Meagher on Saturday evening at the Indian Valley Inn at Kerhonkson.

Mr. and Mrs. Eli Rider visited his father, Harvey Rider, of Kerhonkson, on Sunday.

Miss Dorothy Geary is a member of the June graduating class of Kerhonkson High School.

Miss Doris Potter is employed by Mrs. A. Borenbaum.

Mr. and Mrs. Ralph Lyman entertained his mother, Mrs. Mary Lyman, and his brother, Kenneth Lyman, of Nanuet, Sunday evening.

Miss Evelyn Mertine entertained Miss June Atkins Wednesday afternoon.

Mr. and Mrs. Lacy Smith entertained Mrs. Evelyn Meagher and Miss Nora Daley at dinner Friday evening.

Miss June Atkins entertained many of her young friends at her home last Saturday evening.

Mr. and Mrs. Arthur Schoonmaker spent Sunday evening with his parents, Mr. and Mrs. DuBois Schoonmaker, of Earl Wawarsing.

Mr. and Mrs. Calvin Mertine entertained Mrs. Henry Sherman Wednesday.

Indians To Honor Memory Of Friend

Will Dedicate New Sweet Cherry At Geneva On July 8 In Tribute To Professor Peck, Their Fruit Advisor At Time Of His Death.

Geneva, N. Y., July 1.—For the first time in history a group of Indians will dedicate a tree to the memory of a white man when some seventy chiefs, farmers, home-makers, and 4-H Club workers from the seven reservations in the state assemble on the grounds of the Experiment Station here on Wednesday afternoon, July 3, to receive from Dr. U. P. Hedrick, station director, a new sweet cherry which they will name the "Gill" Peck in honor of their friend and advisor, the late Prof. Gilbert W. Peck of the College of Agriculture. The dedication will take the form of an ancient ceremonial with Chief Jesse Lyons, prime minister of the Six Nations Confederacy, officiating.

Professor Peck was for many years extension worker in fruit growing among the Six Nations who own 87,000 acres of land in their seven reservations in this state. At the time of his death a delegation representing the 6,500 Indians that comprise the Six Nations of today called upon Dr. Hedrick and asked that he name a sweet cherry in honor of "our friend and helper, Gill Peck, in whose passing we feel a deep arrow in our hearts. We shall plant this tree on our reservations as a permanent memorial to remind us of his help to us and to bring to our children again his smile when he played with them."

New Cherry Resembles Giant

The site occupied by the Experiment Station is closely identified with Indian lore, for nearby was located at one time the capital of the Senecas. Also, immediately adjacent to the station grounds is an Indian burial mound concerning which history states that Sir William Johnson, often referred to as the father of New York agriculture, and a powerful Indian chief of the Senecas popularly known as "Old Smoke" agreed should be kept sacred "so that the plow of the white man will never disturb the sleep of our fathers". This agreement has never been violated.

The new cherry that the Station fruit specialists have selected to be named the Gill Peck is a black, firm-fleshed, richly flavored seedling from a cross between Napoleon and Giant which it resembles. It is in season early in July, a full week ahead of Giant.

BEARVILLE LODGE HOLDS MEMORIAL SERVICE

Sunday evening in the I. O. O. F. Hall, Bearville Lodge No. 533, I. O. O. F., and Agape Rebekah Lodge, No. 623, held its annual memorial service honoring the deceased members of both organizations. The service was conducted by Lamonte Simpkins and was opened by the singing of "Come Thou Almighty King," followed by the Scripture lesson and prayer by the Rev. Orson Rice. Then the hymn, "Sweet Hour of Prayer," was sung by the audience followed by the address of the evening delivered by the Rev. Mr. Neander of Saugerties on the topic, "Lives That Live". The service was closed by an impressive pageant conducted by the Agape Rebekah members which terminated with a reading of a list of the deceased members and the benediction by the Rev. Mr. Neander.

Highland Resident Inherits

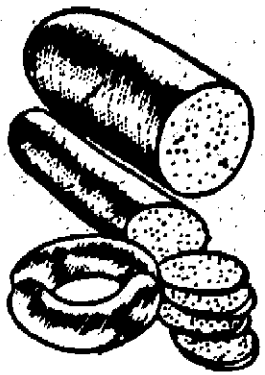

New York, June 29 (Special)—Daisy Canfield of Highland inherits approximately \$3,307 representing one-half of the estate left by her aunt, the late Kate T. Bellby, of Brooklyn, according to the terms of the New York State Transfer Tax Department filed here. The testatrix died here December 29, 1932, leaving an estate appraised at \$6,627 gross value and \$7,444 net. Another niece, of Poughkeepsie, also inherits \$3,307. The residuary legatees are the executors of the estate.

Patent Leather Shoes Back

Paris. (P.)—Patent leather shoes are back in vogue. A number of chic Parisians are wearing pumps of the shiny black leather with their afternoon costumes of tulle and crepe.

Some crooks do have the darnedest luck. There's the fellow in New York who lifted a \$20 bill from another man's pocket and then got arrested for passing counterfeit money.

It isn't healthy to take chances!

BOLOGNA IN 3 VARIETIES
These deliciously substantial bologna have an exceptional flavor.

LUNCHEON LOAF
A deliciously baked combination of choice beef and pork.

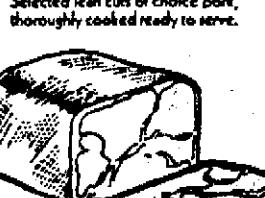

CHICKEN ROLL
Try this appetizing blend of choice fresh chicken and pork.

SMOKED LIVER SAUSAGE
Liver—a body builder testily blended with selected meats.

PRESSED HAM
Selected lean cuts of choice pork, thoroughly cooked ready to serve.

BOILED HAM
Thoroughly boiled—until done, with a mild sweet flavor.

CHEAP MEATS CRACK UP YOUR HEALTH

The stunt man who cracks up planes for a living can afford to take chances; he is well paid for it. But, when you take a chance on cheap frankfurts, you may pay for the crack-up of health and digestion that is apt to follow.

To protect your health, be sure that the frankfurts you buy are First Prize U. S. No. 1 Grade.

First Prize U. S. Grade No. 1 Frankfurts are the finest that the market affords—in quality—in purity—in flavor. Look for the Certificate of Quality—the highest endorsement Uncle Sam can award. It is your guarantee that First Prize Frankfurts are made only from the choicest beef and pork, rigidly selected.

To try them once insures such a delightful meal that you will always insist on First Prize Frankfurts.

DOUBLE INSPECTION FOR YOUR PROTECTION

How will you like your New Relations?

YOU are a bride whose days are filled with romance—and practical problems! You have foods to buy. The spare bedroom needs draperies and blankets. You must have a telephone installed. There is the medicine chest to be filled with simple yet reliable supplies . . . insurance to think of. And the generous check from Uncle Michael . . . you are planning on a new car or a grand piano with that!

When you make each unaccustomed purchase, you establish new relations. Whether they will bring you joy depends on your care and forethought in choosing the right relations.

But inexperience need not turn you timid. Read the advertisements in this newspaper. They will tell you what to buy, where to buy and how much to spend. They will bring you the knowledge you need. They will help you to find "new relations" that will become ready helpers and faithful friends.

IF YOU WANT TO BUY A HOME

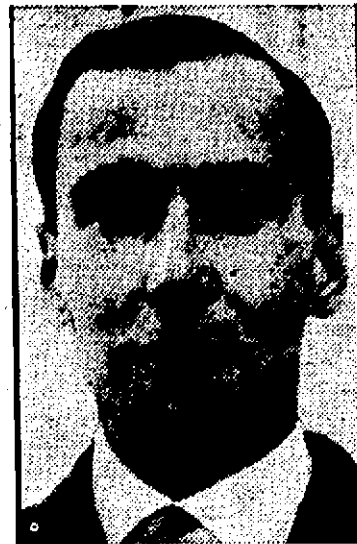

Build, Renovation or Improve Property, we will help you—you can repay your loan monthly, as you pay rent.

Parent-Teacher Groups Submit Reports for Year

(Continued)

Following are annual reports of the several Parent-Teacher Associations of the different schools of the city:

Annual report of the secretary of the Parent-Teacher Association of Kingston High School for the year 1934-35:

The year 1934-35, just completed, has proved of much benefit to the members of the high school P. T. A. There have been several outstanding speakers, all of whom stressed some vital phase of the educational problem.

Mr. Dumm spoke at the first meeting on the high school freshman and his opportunities.

In November Mr. Culver told us the causes of school failures; Dr. Mather talked on the progress made by the student in the mental problems of youth.

Miss Cordes arranged for a demonstration at the December meeting which showed how aliens are received at Ellis Island. Also, Miss Hyman gave examples of how her home-making girls aid poor families.

Miss Heaney, attendance officer, told of her problems, and suggested ways of cooperation.

In January, Dr. J. C. Harry, of Bard College, spoke on the past, present and future of the high school.

February brought to us the Rev. C. E. Brown's talk on "Shifting the Responsibilities of Character Building from the Home to School."

In March the program was in charge of the Manual Arts Department; this building was open for inspection before the meeting. Roy Files, head of the State Department of Manual Arts, addressed the meeting; he told of the work in this department throughout the state.

Dr. E. P. Smith, also from the State Department of Education, gave a talk at the April meeting in which he discussed recent examinations and future trends in secondary education.

Financially the year has also been profitable. The card party proved a success in spite of inclement weather.

The attendance has been good—particularly so at the last few meetings.

There are 92 paid members this year. Last year we had 120. Have these 92 been able to carry on as successfully as the 120 last year? The results seem to indicate no let-down on their part.

Altogether, it has been a very profitable and "advantageous" year, full of pleasant contacts and cordial cooperation. A year we can all review with pride in accomplishment attained.

It would seem that much more could be achieved if we had a larger proportion of the 2,800 parents enrolled in the association, as active members. The future possibilities are infinite.

Respectfully submitted,
IRENE BOSTWICK, Secretary.

P. T. A. School No. 1 purchased 12 silent readers for eighth grade, 1 pair basketball goals, six balls and a bat for baseball team, one pair glasses.

Entertainment—Founder's Day party for members and friends, Halloween costume party for children and friends; Christmas entertainment and candy and oranges are given to all school children and visiting children. A closing party in June for all grades, refreshments furnished and served by P. T. A. members.

Awards: Prizes are given for best records in grade work.

Respectfully,
M. E. NOBLE, Treas.,
P. T. A. School No. 1

Report of No. 4 P. T. A.
Our work has been largely welfare work. We furnished cocoa to our lunch pupils, hired a woman to make and serve it. We sent a boy to the Y. M. C. A. camp last summer, and paid towards several pairs of glasses. At Christmas time we gave candy to the down stairs grades. We bought a much needed march record for the school phonograph, and subscribed for a "Safety" magazine for school use.

Our janitor was given \$10 for

FIGURES IN CANADIAN-AMERICAN CONFERENCE

Above, left to right, are: James T. Shotwell, director of the Division of Economics and History, Carnegie Endowment for International Peace; Dr. W. Hamilton Fyfe, principal of Queen's University, Kingston, Ontario; Sir Robert Borden, former prime minister of Canada; Alanson B. Houghton, former U. S. Ambassador to Great Britain, and Owen D. Young, representing the St. Lawrence University. Below are Col. William Wilgus (left), consulting engineer of the New York Central Railroad; Prof. Albert B. Corey (center), of St. Lawrence University, and Dean Howard Lee McBain of Columbia University. (Associated Press Photos).

extra services. We sent two delegates to the spring conference and one to Ulster county conference. Sent \$3.05 Founder's Day collection to the state and national.

Our Geography Class was invited to hear a talk on South America by Roger Loughran who spent four years there, and the upper grades were invited to hear a talk on "The History of Bacteriology" by Miss B. Eleanor Easton of the city laboratory.

Funds were raised by a card party, an entertainment and play "Circus Day", a clam chowder sale, and our part in the proceeds of "The Wizard of Oz."

BESSIE O. ANDERSON,
Secretary.

Report of President of School No. 3 P. T. A. from Sept., 1934, to April, 1935.

At our September, 1934, meeting our new officers took their places and started a new year, with our program chairlady outlining a very interesting program for the coming year.

At our October meeting we had Dr. Crowley as our guest speaker. This was an evening meeting. And following that we had a very nice musical program, and served refreshments.

In October we also had our annual card party and had a very good crowd. At this time we also purchased one pair of glasses for a child, also an arithmetic project, which would benefit the first three rooms.

November Meeting.

Mr. Van Ingen was our guest speaker at this meeting. Voted on giving Christmas candy to children at Christmas.

December Meeting.

We had Clarence Schoonmaker for our guest speaker.

January Meeting.

At this time it was voted to give the usual prize of \$1 to child having highest average in each room. Principal Clarence Dumm of the High School was our speaker. At this time had the Christmas exercises repeated by the children of the school.

February Meeting.

February meeting was founders' night, which we observed with a pageant, "Down Memory's Lane." Also gave money towards another pair of glasses for a child. Bought tickets for the home children to see the play "Wizard of Oz."

March Meeting.

Our March meeting the faculty

entertained the P. T. A. A very enjoyable musical program was put on and refreshments served.

April the new officers were elected, which are: Mrs. G. Logan, president; Mrs. G. Hudler, vice-president; Mrs. E. Hillis, secretary; Mrs. Hicks, treasurer. Also we have voted down the prizes. There will be no more given in the school by P. T. A.

MRS. GEO. GEISLER, Pres.

The activities of our association for the school year 1934-1935 began with the meeting in September and have been most successfully carried through the year under the guidance of our president, Mrs. Thomas Reynolds, with the wholehearted support of teachers and parents.

A membership drive was most encouraging and we now have 262 active members.

The programs provided by the school and the guest speakers secured by the program committee, Miss Gallagher and Prof. Miner, were most pleasing and interesting and contributed greatly to the enthusiasm of every meeting.

We supported both the county and state associations, sending delegates to each convention, through which many fruitful ideas were obtained.

At Christmas time we contributed to the school program and the joy of the occasion by providing toys and candy for the children of the school.

Lincoln's birthday and Founders' Day were observed in a pleasing manner with an appropriate program.

For the purpose of sustaining our treasury two card parties were given, two food sales held and the Junior League play sponsored, all of which added tidy sums.

The lunch room operated under the supervision of Mrs. Hayes for the benefit of undernourished children and students living at a distance, was

sponsored by the support of an entertainment given by the students on November 23.

We encouraged good work on the part of students by providing prizes for the boy and girl of the graduation class receiving the best average and the boy and girl receiving second best average.

During the year we encouraged cooperation between parents and teachers to the end that a better understanding may be had.

Many cases of distress were given attention and relieved by providing glasses, clothing, shoes and books to students in need.

The school was also provided with a printing outfit.

The efforts of Prof. Miner, teachers and students and the interest of parents have produced a most successful year for our association, which comes to an end with this meeting.

To everyone is due much praise, to all many thanks, your officers could have accomplished nothing without your support.

BETTY SMITH SHUFFELDT,
Secretary, School No. 6.

Report of School No. 7.

Our outstanding accomplishments were the serving of soup and cocoa from September until June; presenting the school children with volley ball net and balls at Christmas; purchasing three pair of glasses and through our efforts the board refinished our blackboards.

FRANCES CRAIG.

School No. 8.

School No. 8 began its year with 159 members. The school had a very complete overhauling, all new fixtures and floors. Two cake sales, two Halloween parties, 500 boxes of candy. Aprons sent out once Unit voted to eliminate all cash prizes.

Fresh, Rich Milk Tastes Good; That's Why So Many Drink It

Commissioner Ten Eyck Tells Why the Flavor of Milk Is So Attractive

By PETER G. TEN EYCK

Commissioner, Department of Agriculture and Markets
Albany, New York

MILK is probably the only food which entire races of people take day after day, in liberal quantities as a staple article of their food supply, without tiring of it. Undoubtedly the fresh, bland, wholesome sweet flavor of milk is largely responsible for the place it occupies in the human diet.

The term flavor commonly refers not merely to taste, but to a blending of both taste and smell.

Fat and Flavor

The flavor of milk is improved to the taste of most persons as the

Milk is enjoyed by all races and nations. This is Eagle Brand, of the Wausau Indian Tribe of Wisconsin.

percentage of fat is increased within certain limits. Three to four per cent of fat probably satisfies the taste of most persons.

The beautiful white marbled creamy appearance of a glass of milk makes it a drink attractive

for excellence. Jersey, Holstein and Ayrshire milk are of this beautiful white type. To many the golden color of Guernsey milk suggests richness, elegant flavor and taste.

For most people the flavor of pasteurized milk is highly desirable. This is not a cooked flavor. Pasteurization is not cooking or boiling. The boiling temperature is 212 degrees Fahrenheit but in pasteurization, by the holding method, the temperature is raised only to 143 degrees and held there for thirty minutes.

To many the flavor of warm milk immediately after it comes from the cow is attractive and such milk is often claimed to have a special health value. Most people, however, prefer the taste and flavor of a glass of ice cold, marble white or golden Guernsey color.

Milk and Sleep

We are finding more and more that hot milk drunk just before retiring has a quieting effect on the nerves and produces restful sleep. The sweet flavor of such hot milk is indeed most attractive to those who have acquired the taste for it.

For hot summer days, soda fountains and milk stands nowadays connect many wonderful attractive flavored drinks. Among them are the following: Alice in Wonderland, Punch and Judy, Coffee Frost, Deep South and Golden Delight.

A pamphlet issued by the Consumers Information Service of the Department of Agriculture and Markets, gives recipes for many of these fancy milk drinks. This pamphlet entitled "Snappy Milk Drinks" may be secured by addressing a postal card request to the above address at Albany, New York.

Waley Attorney Juggles Legalities

Seattle, July 1 (AP)—The nice legal question of whether Margaret Thulin Waley was obligated to expose her kidnaper husband and his accomplice in the George Weyerhaeuser case was described today as her chief defense on charges of Lindbergh law violation.

John F. Dore, her attorney, raised the point in discussing what constitutes "participation" in a crime, particularly as it refers to a wife, in preparing for Mrs. Waley's trial at Tacoma Friday.

"More passive assent to the committing of a crime, such as a witness viewing a slaying which he might have prevented but did not, does not make a person legally culpable," Dore asserted.

"Active assent, such as deliberately aiding in a crime, must be proved," he said. "We contend she had nothing to do with the boy's abduction and that she did not know anything about it until it was well under way."

"A wife, least of all, could be expected to inform on members of her family," he added.

Meanwhile, an apartment was found here in which Mrs. Waley and her husband, Harmon, stayed shortly before the kidnapping on May 24. He is serving a 45-year sentence in McNeil Island after pleading guilty to the \$200,000 kidnapping.

Circus One of Best Ever in Kingston

The Hagenbeck, Wallace and Forepaugh Sells Brothers circus that played Kingston on Saturday proved one of the best circuses to ever play here, and pleased large audiences both afternoon and evening. All of the acts were as represented in advance by the circus, and from the opening number until the close there was not a dull moment in the performance. Bert Nelson with his ring of lions and tigers put on one of the best animal acts ever shown here, and his wrestling lion Norma with which he wrestled all over the cage

proved one of the hits of the circus. John Herriott, veteran trapeze artist, with his mixed animal act was also a high calibre act as well as Mile Rasputin and her lion and horse act. Both the ground and aerial acts were also topnotch, as well as the trained horses who performed in the circus. The clowns were really funny and there were a number of them.

What Congress Is Doing Today

By The Associated Press

Senate:
Considers ship subsidy bill.
Banking committee works on omnibus banking bill.
Agriculture committee formally reports AAA amendments.

House:
Votes on "death sentence" for utility holding companies.

Notice to Bond Holders
In an advertisement found elsewhere tonight the Orpheum theatre is calling the attention of the bond holders that the payment of the semi-annual interest on the first mortgage bonds due today will be deferred to on or before November 1.

HASBROUCK SOCIAL CLUB BURGLED SUNDAY

Early Sunday morning a thief broke into the Hasbrouck Social Club at 131 Hasbrouck avenue, and stole cigarettes, liquors and some pennies. A report of the burglary was made to the police department when it was discovered later that day.

Lights of New York

by L. L. STEVENSON

Meanderings and meditations: A policeman breaking up a street game for all. But with no attempt at making arrests. A waiting taxi cab driver willing away time by listening to a beauty aid broadcast. A car with a South Dakota license stopped in Times Square. The occupant, a very dignified, middle-aged man, and on the seat beside him an ukulele. Osgood Perkins, boss of the aviators in "Cellophane" on his way to the Music Box. A blind man singing my current favorite, "Sing, Went the Strings of My Heart." Have reached a point where I can do without, "Isle of Capri." An inebriated gentleman in full evening attire threading Broadway traffic and ignoring stares and grins. Frank Case, of the Algonquin, chatting with Margalo Gilmore. Lester Stone, secretary to the mayor, trying to enter city hall without being stopped by those eager to see his boss.

An ancient Italian digging dandelion greens on Riverside Drive. Wonder if dandelion wine is still being made? Long lines of men and women leaning on the wall and watching the river. Canoe paddlers in bathing suits. Wonder what's become of that red-headed girl who used to walk from One Hundred and Sixteenth street to Seventy-second street each morning? Motorists, to whom she was a familiar figure, used to smile and wave at her. But she never paid any attention. Merely strode along as if after a walking record. Athletes in running pants taking their daily exercise. Dog walkers chatting with fellow dog walkers. With I had time to take a bus up to Inspiration Point. The broad sweep of the Hudson there is surely inspiring. And I like to watch the river boats.

Pleasant chat with Judge Harry B. Keidan. About old Detroit days. Always feel young again when I visit with him. My youth came back also in talking over the phone with Leo Bastendorf. Dropped in to Major Bowes' cocktail party. He lives alone atop the Capitol theater. But has four servants. His apartment is an art gallery. With a special lighting system for the various canvases. A gallery of photographed photographs also. Guests just wander around and make themselves at home.

That Forty-second street bar with 52 mixed drinks in the window. They all look authentic, too. And that sign on a Seventh avenue grill, "A 100-foot bar to serve you." Wonder if there is any significance in the fact that there are many nut shops on Broadway? Morris Gest still wearing the old familiar hat. Wonder what happened to that bright-eyed Broadway movement? The so-called main aisle seems to look more seedy every day. A push cart man in dire distress. A suddenly swerving taxicab literally upset his apple cart. Adventurers in too much of a hurry to wait for lights braving Times Square traffic.

Gardenia vendors on almost every corner. A nickel for a bloom that used to be in the luxury class. Wonder if 88 orchids are still being sold. A restaurant sandwich man resting before the window of another restaurant. Four pants-to-match sandwich men in one Forty-second street block. Friend Captain Spaulding off for the Baltic. Hope to sail the Caribbean with him again this fall. Rival rose peddlers glaring at one another.

A cop hawling out a tough looking taxi driver. And the driver taking it meekly. Neighborhood movies that have solved the problem of filling the balconies. By permitting smoking upstairs. Guitarie McClintic, who holds that more than ever, "the play's the thing." Because talking pictures, with almost limitless scope for scenic effects, have made it impossible to get the public into theaters merely by spectacular scenic production.

Old Boats to Sink in Land Sandusky, Ohio.—Boats which have outlived their usefulness on the Great Lakes and are in various decaying stages in slips along the Lake Erie waterfront here may be used for "filling in" in a reclamation project here.

Two "Dog Killers"

Turn Soft and Quit

Murphy, Ill.—Mayor Comte hired two men to "shoot to kill" in the city of unlicensed dogs. Armed with revolvers, the two men set out and found a dog. Looked the first dog catcher, leveled his gun. The dog wagged its tail. Looked at the gun and said "I quit." The companion took up the baton, but the dog left before the companion could be completed. Undaunted, he found another dog and leveled his gun. A boy looked over a nearby fence and pleaded: "Miss, don't shoot my dog." The men put the gun away and joined Louis in informing the mayor that he would have to hire a couple of new dog catchers.

ELECTRIC MOTORS

Represented by the firm

25 Perry St.—Phone 2977

The only electric motor shop in the city equipped to overhaul and repair all types of electric motors.

MEET THE WIFE

MRS. F. E. TOWNSEND

While Dr. F. E. Townsend of Long Beach has been quite busy all over the country explaining and organizing followers for his plan to take care of old folk by government pension, a little, soft-voiced, white-haired woman keeps on taking care of him. "I'm just a homebody," she says and turns the conversation to her husband. "You know he has never said an unkind word to me in all the years of our married life." She was a trained nurse when they met last century in the Black Hills country of South Dakota. Not only does she prepare the meals and keep up their little home, but much of her time is taken up with the application of her early training in preserving the health of her husband.

Events Around The Empire State

Speculator, N. Y., July 1 (AP).—

Francis J. Goldman of Mamaroneck, vice-president of the Central Hanover Bank and Trust Company of New York, died at his camp near here yesterday after a heart attack. He had been rowing on Lake Speculator and had watched a baseball game before complaining of feeling ill.

Albany, N. Y., July 1 (AP).—Gasoline tax income is on the gain in New York state. An increase of \$358,476.93 for the first four months of this year as compared with 1934 was reported yesterday by State Tax Commissioner Graves. Receipts for period this year totaled \$12,347,734.26 while last year they were \$11,989,257.83.

Newburgh, N. Y., July 1 (AP).—Jamestown will be the scene of the 1936 cantonment of the Patriarch Militants and Ladies Militant, Uniformed Ranks of the Odd Fellows. The southwestern New York city was chosen at the close of the annual meeting here yesterday.

It's strange how mad an optimist can make a pessimist, and how sad a pessimist can make an optimist.

TRAFFIC SIGNS ALL WRONG

NO HONOLULU CHANGING LAW

Honolulu (AP)—It is easier and cheaper to change a law than to alter traffic signs the city council has decided, so speed and parking statutes are being revised.

After 45-mile-an-hour limit signs

had been erected on boulevards somebody discovered the law prescribed a maximum of 35. Steps were instituted to amend the code. Then it was discovered curbs had been painted to outlaw parking within five feet of fire plugs whereas the law required a ten foot clearance. Another amendment was in order.

A famous French chef, whose roast duck in orange juice and creamed pheasant is a royal make mouths water the world over, eats only white bread, sausage and lemonade dosed with red wine.

In view of those threatening taxes, believe us, if we ever find ourselves with \$50,000,500 we'll go and spend it.

NEXT DOOR TO COURT HOUSE

ATHLETES SAY:

"THEY DON'T GET YOUR WIND!"

SAM HOWARD, the high-diving champion, says: "I can smoke Camels all I want to and keep in perfect 'condition.' Camels are so mild. They never get my wind. And when tired a Camel gives me new energy."

CARL HUBBELL, star pitcher of the N. Y. Giants: "Camels are so mild, they never get my wind or rattle my nerves."

GEORGE BARKER, the former intercollegiate track star: "A cross-country runner has to keep in shape. I've learned one thing about cigarettes—Camels are mild. They don't get my wind, and they never bother my nerves."

GEORGE M. LOTT, Jr., tennis star, says: "Camels never take the edge off my condition or get my wind, because they are mild. I understand more expensive tobaccos are used in Camels. That accounts for their mildness!"

BILL McILWAIN, the star golfer, adds this timely word: "I've got to keep fit to compete in tournament golf. I can smoke Camels steadily. From years of experience I know they won't get my wind or jangle my nerves."

CARL HUBBELL, a Camel smoker for many years, caught in action on the diamond: "Camels have flavor, plus mildness—a rare combination. And they never get my wind. I'd walk a mile for a Camel!"

YOU'LL LIKE THEIR MILDNESS TOO!

Because Camels are so mild...made from more costly tobaccos than any other popular brand...you can smoke all you please. Athletes are agreed that Camels do not jangle the nerves or get the wind. You'll never tire of their appealing flavor.

SO MILD YOU CAN SMOKE ALL YOU WANT

camels

COSTLIER TOBACCOS!

Camels are made from fact, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

On The Radio Day By Day

C. E. BUTTERFIELD

Time is Eastern Daylight.

New York, July 1 (AP).—John D. M. Hamilton, the Republican National Committee's General Counsel, is scheduled for WJZ-NBC Tuesday at 5:15 p. m., in a discussion of "False Issues." Hamilton, who lives in Topeka, Kan., is making a special trip East to make the speech before the Women's National Republican Club in New York.

Grantland Rice will comment on various sports subjects in a new five week series to start on WJZ-NBC Thursday night from 7:15 to 7:30.

July 4, among other things, will bring special programs honoring an American composer and King George's Jubilee.

Selections of the composer, Stephen Foster, will be played by Leo Spitalny's Orchestra over WJZ-NBC from 11:30 a. m. to 12 m. John T. Howard, author of a book on Foster whose birthday falls on this date, will direct the ceremonies.

The jubilee will be feted in a special broadcast of massed bands at the Eleventh Annual Scottish Games of Round Hill, Conn., to come over WJZ-NBC at 2:45.

TRY THESE TONIGHT (MONDAY):

WEAF-NBC—8:30—Monday Evening Concert; 9—Horlick's Gypsies with Rudy Vallee; 9:30—Music at the Haydn's; 10—Eastman Concert; 10:30—Max Baer, Drama; 11—Henry King's Orchestra.

WABC-CBS—8—Fray and Braggiotti, Piano; 8:15—Edwin C. Hill Comment; 8:30—Pick and Pat, Comedy; 9:30—St. Louis Blues, new time; 10:30—The Night Singer; 11—Abe Lyman's Orchestra.

WJZ-NBC—8:30—Brahm's Music Festival; 9—Greater Minstrels; 10—Canadian Dominion Day Celebration; 10:30—Chicago Symphony; 11—Harold Stern and Orchestra; 11:30—Ray Noble's Orchestra.

WHAT TO EXPECT TUESDAY:

WEAF-NBC—7—Christian Endeavor Convention; 7:45—Francis Bowes Sayre, Assistant Secretary of State, on "The Tariff and Business Recovery."

WABC-CBS—8:15—National Education Association Convention; 3—Governor Landon of Kansas on "Kansas Balances Her Budget."

WJZ-NBC—4:30—Wimbledon Tennis Summary; 6 p. m.—NEA Convention, Senator Cogan.

Experts See Trade Revival
In New Export-Import Ratio

The relationship of exports and imports in the United States' trade with Europe and South America is shown in this chart covering the period since 1928. The change in that relationship in the early months of 1935 may be noted particularly in the export and import lines for trade with Europe.

By ALEXANDER R. GEORGE.

Washington (AP).—The increasing ratio of imports is viewed by government commerce specialists as probably the most significant development so far this year in the trade of the United States with the world.

For the four months ending April 30, the excess value of exports over imports was only \$20,853,000 compared with an excess of \$132,250,000 in the corresponding period of 1934.

Moreover, in April imports exceeded exports for the first time since August, 1933, the peak of the import movement which set in directly after the suspension of gold payments by the United States.

This trend toward a better balance between our imports and exports is regarded as an encouraging development by advocates of foreign trade revival.

The Gold Situation.

Outstanding foreign trade development in 1935 was the expansion in the United States' merchandise export balance to the largest dollar total since 1930. While the merchandise export net balance was close to a half billion dollars, net imports of gold exceeded a billion dollars.

Commerce experts immediately pointed out that such a situation could not continue indefinitely because there are limits to the capacity of foreign countries to pay in gold and silver for goods they need that unless merchandise imports expanded, or appropriate adjustments were made in service or

capital items, the United States could not hope to increase and perhaps not even to maintain its export business.

While this year's trend to a reduction in the excess of exports over imports is regarded as a healthy sign in the long range view, the big increase in the receipts of foodstuffs from foreign countries—a large factor in the advance of imports—has been due in large measure to an unusual agricultural situation in this country.

Character of Exports Changes.

Precautions for Fourth of July

Members of the Nation Wide Chain of Service Grocers have received instructions concerning precautions for the Fourth of July. The instructions are here passed along to all merchants, who desire to use them in protecting their shops over the national holiday.

Important Instructions.

Close cellar windows Wednesday night, July 3.

Do not have boxes, barrels or paper outside of store over Wednesday.

Remove rubbish and papers from beneath gratings so that firecrackers falling through will not do any harm.

Lock and bar all doors and windows at the close of business Wednesday, July 3, and leave your cash register open.

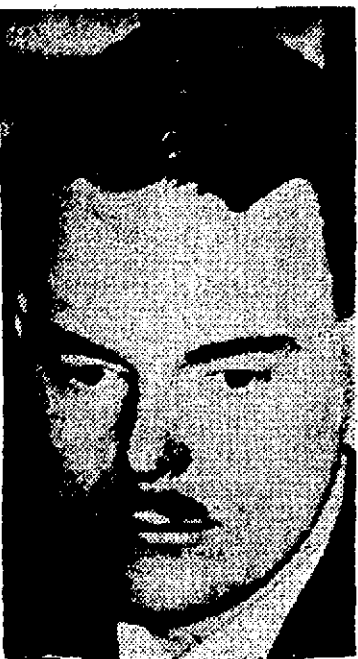

Roll up your awning and keep it up over the Fourth.

Do not leave glass goods, candy or other such items in your window over the holiday, as your awning will be up and the sun will do them damage.

Do not leave your window empty, however. A great many people will be traveling by your store on the holiday. All windows should have attractive displays.

Display the flag in your window from Saturday, close of business, June 29, until Friday morning, July 5. Do not allow the flag to touch the merchandise, and remember that the Field of Stars should be in the upper left hand corner as viewed from the street.

May Tackle Vice

Thomas Dewey, prominent New York attorney, has been recommended by Governor Lehman to probe vice conditions in New York City. (Associated Press Photo)

NOTICE OF SPECIAL ELECTION.

TAKE NOTICE, that a Special Election will be held in the City of Kingston, New York, on the 23rd day of July, 1935, for the purpose of presenting a proposed Charter for said City to the qualified electors thereof for their approval or rejection.

The question to be submitted to the qualified electors of the City at such election shall be as follows:

"Shall the proposed Charter adopted by the Common Council of the City of Kingston, New York, at the regular May meeting thereof, subsequently approved by the Mayor, known as Local Law No. 2 of the year 1935, the short title of which is 'CHARTER of the City of Kingston,' be approved."

The said Local Law revises the City Charter now in existence by amending, supplementing and repealing certain sections thereof, and adding new sections thereto. It provides a new form of government for the City of Kingston, abolishes a number of boards, provides for a smaller Common Council to be elected at large, instead of from wards, changes the terms of office of various City Officials and, in fact, constitutes a new form of City government.

The hours on which the polls will be open for voting at said special election, shall be from 6:00 A. M. to 6:00 P. M. (Daylight Saving Time) in accordance with the provisions of Section 191 of the Election Law of the State of New York.

The boundaries of the Election Districts in the City of Kingston for said special election shall be the same as at the last general election.

Copies of the proposed Charter are available at the offices of the Board of Elections of Ulster County, 74 John Street, Kingston, N. Y., and at the office of the City Clerk, in the City Hall, Kingston, N. Y.

Given under the hands of the Commissioners of Election and the seal of office of the Board of Elections in and for the County of Ulster at the City of Kingston, N. Y., this 5th day of June, 1935.

J. CHARLES SNYDER,
HARRY D. SLEIGHT,
Commissioners of Elections,
for the County of Ulster.

NOTICE TO CREDITORS—In pursuance of an order of Hon. GEORGE F. KAUFMAN, Surrogate of Ulster County, notice is hereby given, according to law, to all persons having claims against Ernest Hutchins, late of the Town of Esopus, County of Ulster, deceased, intestate, to present the same with the vouchers in support thereof, to the undersigned, Elvin Hutchins, the Administrator of the estate of said deceased, at his residence, Fort Eden, N. Y., on or before the 5th day of October, 1935.

Dated March 25th, 1935.

52 John Street, Kingston, N. Y.

NOTICE TO CREDITORS—In pursuance of an order of Hon. GEORGE F. KAUFMAN, Surrogate of Ulster County, notice is hereby given, according to law, to all persons having claims against Elvin Miller, late of the Town of Otine, County of Ulster, deceased, intestate, to present the same with the vouchers in support thereof, to the undersigned, Philip Miller, the Administrator of the estate of said deceased, at his residence, 200 West Street, Kingston, N. Y., on or before the 20th day of December, 1935.

Dated June 2nd, 1935.

PHILIP MILLER,
Administrator of the Estate of Elvin Miller, deceased.

T. F. VAN WAGENEN, Attorney,
240 Wall Street, Kingston, N. Y.

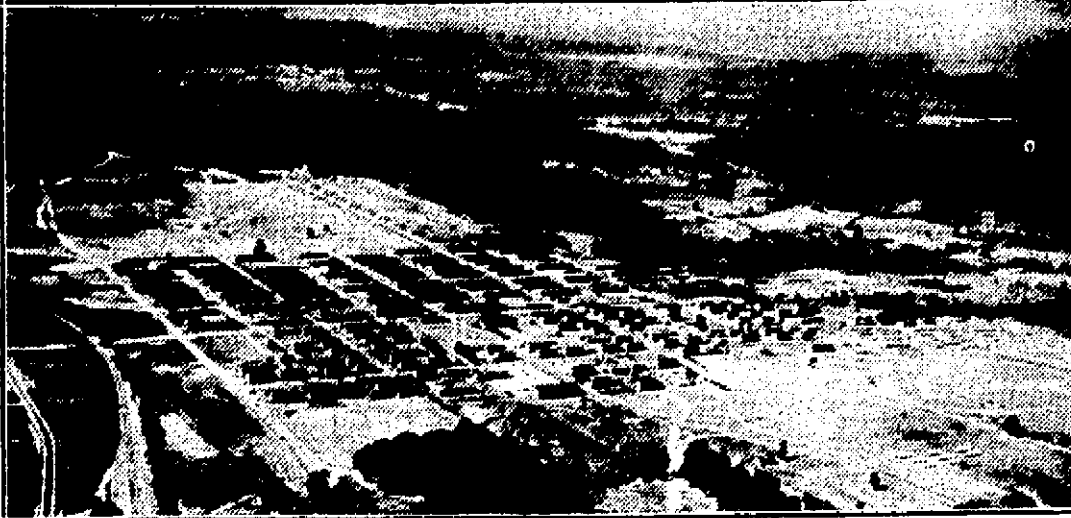

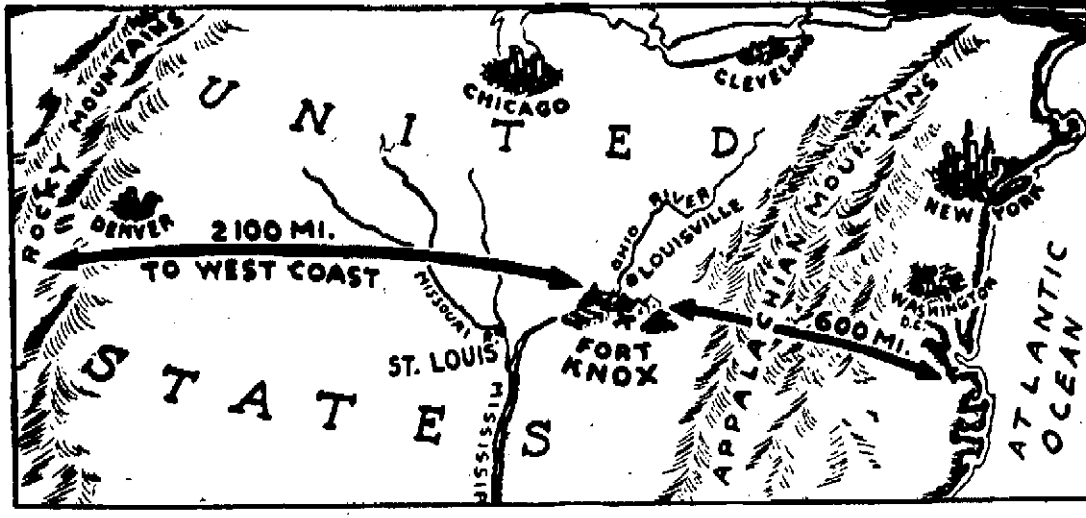

NOTICE TO CREDITORS—In pursuance of an order of Hon. GEORGE F. KAUFMAN, Surrogate of Ulster County, notice is hereby given, according to law, to all persons having claims against John D. Schromm, late of the City of Kingston, County of Ulster, deceased, intestate, to present the same with the vouchers in support thereof, to the undersigned, Philip Schromm, one of the executors of the estate of said deceased, at 224 Wall Street, in the said city of Kingston, N. Y., on or before the 31st day of September, 1935.

Dated April 23rd, 1935.

ALBERTA P. SCHROMM, JAMES D. SCHROMM, JR.,
PHILIP SCHROMM,
Executors.

PHILIP SCHROMM, Attorney,
240 Wall Street, Kingston, N. Y.

WHERE UNCLE SAM MAY BURY MILLIONS IN GOLD

The U. S. government plans to take no chances of losing its money in a foreign invasion, so in miser-like fashion millions of dollars in gold will be buried back of the Appalachian Mountains at some safe spot. Fort Knox, Ky., is the tentative place. It is indicated on the map (above) while (below) is a view of the location. Gold from New York and Philadelphia will be moved there. Other gold is stored at Denver, protected by the Rockies. (Associated Press Photos)

Ulster Dairymen Meet At New Paltz

The Ulster County Dairymen's League held its June meeting in Grange Hall, New Paltz, Friday evening. The chief object of the meeting was to hear reports from delegates who attended the annual meeting recently held in Syracuse. M. C. Albright, county president, from near Catskill, presided at the meeting.

Lady delegates first reported especially for the Home Department. This is an important feature of the league, the wives of dairymen being as much interested in organization as their husbands. Evidently the day given over to associate delegates was full of business affairs and entertainment, according to reports given by Mrs. George of the Montela branch and Mrs. Fred DuBois of the New Paltz local. J. M. Meredith of Wallkill reported on the address of President Sexauer. He spoke in the highest terms of Mr. Sexauer as a man and as the head of the league. The main object of farmer organization, he said, is a higher standard of living. One point emphasized was that of members making known to the leaders their points of view. All must work to get a better price for milk, meaning fair prices. A fair price depends upon costs which farmers have to pay for goods, interest, taxes, etc. It is a good plan to figure from the prices of 1910-14 and 1921-29. The last year has shown some improvement but farmers are still far from the goal. All know that labor not now fully employed hasn't the purchasing power to take all produced milk at a fair price.

Mrs. Charles Everett, of the Plattkill Local, gave further reports concerning the benefits of organization and of the work done by what we frequently call the Home Department. Emphasis was placed on the

use of milk and dairy products, not alone by the city and town dwellers but by farm families also. Dairy products are cheap and highly nutritious besides forming a balanced ration for the entire family. Further, let us build a cooperative spirit. The consumer in the city uses milk or dairy products in many forms. When this is all figured in his cost for milk may be nearer six cents a quart than 12, as was explained by the chairman. Some further facts were added by Raymond DuBois, of the Gardiner Local. League finances are sound, as was explained by various speakers. Charles Everett reported chiefly on the resolutions that were adopted at the annual meeting. These are especially important as they serve as a guide for the management for the year to come. If this meeting directs something it must be carried out. Fred Briche, while not attending the annual meeting at Syracuse, has been interested in the organization and in the betterment of farming conditions. He made clear that he is opposed to some of the AAA projects, especially the destruction of farms while so many are hungry. He argued that common sense should keep making his views known. It is a secret that the Dairymen's League Association as a whole stands for the 'Warren plan' of the commodity dollar and some readjustment of a monetary system. Albert Kurr, manager of the Farm Bureau, responded in his usual happy manner when called upon. The meeting was not particularly large, but harmonious and everybody interested.

Here, For You To See And Buy The Trav-L-De Luxe Coach

That attaches right to your car and it will save you a whole lot of money on your trip over the Fourth or if you are going on a vacation, over the week-end, to the mountains, seashore, hunting, fishing, touring. It's a marvel of comfort and convenience for two or four people. Wired for Radio, also 110 and 6 volt fixtures. All built-in, wonderfully arranged interior fixtures. Amazingly LOW PRICED—See it today in our showroom.

THE COVERED WAGON, another really wonderful Coach is here too for you to see.

Geo. J. Schryver Motor Car Co.
71-73 North Front Street, Kingston, New York. Phone 211.

Make this a 4th you'll Remember!

STORM KING HIGHWAY, N. Y. Between Newburgh and West Point, where this beautiful drive parallels the lordly Hudson, a series of breath-taking panoramas unfold before the motorist.

LAKE GEORGE, N. Y. Discover for yourself the lovely vistas, the romantic glades, the delight of canoeing and black bass fishing among the many sheltered coves of this beautiful lake.

JONES BEACH, L. I. One of the most magnificent public beaches in the country. A mile of fine sand, with deck tennis, archery, miniature golf, playgrounds—everything for a real holiday.

SAYBROOK, CONN. Here Yale College was founded in 1701. Enjoy the beautiful scenic drive along Fenwick Peninsula. Lovely picnic spots.

Go Places... Do Things... On One of These Glorious Trips Through Soconyland!

GET OUT in your car... enjoy this Fourth! Within easy driving distance of your home are thousands of beauty spots... places to swim, fish, ride horseback! We suggest that you look over the trips shown here. If one appeals to you—or if you have another trip in mind—we invite you to visit your nearest Socony Dealer. He will gladly help you with your plans... furnish you with free maps... and your copy of "Socony-Vacuum Tours and Detours." This up-to-the-minute road information will make your driving easier. While you're there, let him clean your windshield—check your tires, lights.

Socony Dealers are famous for their many extra services—as well as for Socony Mobilgas and Mobiloil—the finest products that modern methods can produce. Before you set out, be sure to stop at one of these dealers who displays the Sign of the Flying Red Horse. He'll quickly care for all your motoring needs. And wherever you go on your trip... stop at a Socony pump. There you'll find the same good gasoline and motor oil... the same Friendly Service... that you get at your Socony Dealer at home.

STANDARD OIL OF NEW YORK
Division of SOCONY-VACUUM OIL CO., INC.

CANDLEWOOD LAKE, CONN. A less frequented beauty spot, only 70 miles from New York... inviting motorists to the pleasures of boating, swimming, fishing.

SARATOGA SPRING, N. Y. Golf, tennis, horseback riding—and 18 beautiful golf courses—make this a perfect spot for play or rest.

Socony Mobilgas & Mobiloil

State Troopers Get New Murder Puzzle

Cold Spring, N. Y., July 1 (AP).—Members of the state's new anti-crime unit today had a new mysterious slaying on their hands, a few hours after they had cleaned up the murder of nine-year-old Helen Glenn.

The latest case developed with the finding of the unidentified body of a man in a 75-foot chasm under a bridge on the Cold-Spring-Beacon road. The body, the face badly mutilated by a knife, was found yesterday less than 24 hours after "Scotland Yard" detectives reported they had obtained a confession from Alfred Volckmann in connection with the Glenn murder. The latter was the "Yag's" first major case.

State Scotland Yard Capture Glenn Slayer

(Continued from Page One)

and drove his mother to her home a few blocks away.

The detectives said he then decided he "might just as well finish the job" to prevent the child telling on him. He drove with her to Basia Creek, the confession said, tossed her unconscious form on the ground and stabbed her through the breast with a knife he had picked up as he left the store.

Later he said he was overcome by remorse and made three weak attempts at suicide. On two occasions he drank diluted poison and the third time he said he stood on the edge of his window, attempting to get up sufficient nerve to jump to the pavement. He did not jump.

Grant Cheers Youth

The lad's father visited him in the hospital yesterday and conversed quietly with him for several minutes. District Attorney Donald Grant of Otsego county who successfully prosecuted Eva Cox in the "insurance murder" of Harry Wright, also visited Volckmann. He is married to a cousin of the lad.

"Keep your courage up," he told the boy.

For a time a strained tension was evident in the village but after the confession the only outward signs of the Jeckyl-Hyde drama were at the pastor's home.

No services were held at the Methodist Church yesterday and Mr. Glenn asked the pastor of the Presbyterian Church to pray for the boy's parents.

He said his wife was "bearing up quite bravely" and was emphatic in his statement that he wanted to see justice done to the man who killed his daughter.

Swedes Among the First

Business Men in World

Sweden is one of the great nations of the world, asserts a writer in the Boston Globe. The Swedes have dwelt there for 8,000 years and were among the world's first business men. They claim to have been in America 500 years before Columbus, and it will be recalled that they settled one of our first 13 states.

They claim to have founded the Russian empire and in discovery were first through the Northeast Passage. They were the first nation to recognize the independence of the United States and there never has been any political misunderstanding between us.

Commercial men remember that the Swedish Copper Mountain Mining company at Falun is the oldest existing industrial organization in the world, as its records go back to the year 1225.

Sweden gave us John Ericsson, Alfred Nobel, Linnaeus, Scheele and many others who were first and greatest in their respective spheres.

Pronunciation of "Moscow"

The correct pronunciation of this name is Mosk'ko, first o as in not, second o as in go, says Literary Digest. With one exception, all of the dictionaries, pronouncing gazetteers, and word-books agree on this pronunciation. The one exception follows the German pronunciation moskau, as as on in out. The Russian name is Moskva. To determine American preference, letters were sent to the postmasters of the 32 cities and towns of this name in the United States. Of the 32 who replied, nine said, "Second o is go." One of these amplified his statement: "Local people say moskow; outsiders say moskau." Another wrote: "We pronounce it the same as Moscow, Russia, rhyming with the word go." The postmasters of Moscow, Idaho, and of Moscow, Mich. favored moskau. One of these wrote: "Rhyme with cow, same as Russian city." Without exception, official and unofficial Russian authorities in Washington to whom the question was put verbally agreed in favor of moskow.

Violet Ray's Death

Scientists have concluded that Violet Ray de Troy the nurse in life, died.

SHOKAN

Shokan, July 1.—Richard Prem of New York city is a guest at the Grossman farmhouse. This is Mr. Prem's first sojourn in the reservoir country.

Harold Wilson of Newark was a caller in the village center Sunday. Young Wilson spent the week-end with his mother, Mrs. Maybelle Wilson, of the Samsonville road.

The Arion string quartette of the Maverick Theatre were guests of their friends, Dr. and Mrs. Hans J. Cohn, Thursday evening. A musical party was enjoyed and refreshments were served. Both Doctor and Mrs. Cohn are talented musicians.

Lester Rose has returned to his home from a Kingston hospital where he was operated on for an abscessed jaw. Lester has practically recovered from his serious illness.

Russ Pupello, formerly chief clerk in the administration building at the CCC Camp, writes Shokan friends that he has a steady job in New York city, his home town.

Mrs. McCullough and grandson, Jon Singer, of Samsonville were numbered among the many callers in the hub of the reservoir country Sunday.

Miss Margaret Schultz, a summer visitor to Shokan and Newburgh school teacher, is enjoying a motor trip with her mother through the New England states.

The Rev. J. B. Glenwood, new pastor of the Ashokan M. E. Church, is well liked by the members of his congregation, several of whom are residents of Shokan.

Robert Brown, Kingston high school student and grandson of Mrs. Jane Stubley of The Cairngorm, had the honor of winning the highest prize in science at the high school this year.

Mrs. D. T. Reardon of New York city has rented one of the bungalows owned by Mrs. Ella Secor of Kingston. The building was formerly occupied by the Secor family as a summer residence.

A local marriage of July 2, 1866, was that which united Egbert Phillips of the town of Hurley to Mary Hill of Olive. The ceremony was performed by the Rev. J. H. Lane, pastor of the Shokan M. E. Church, and witnesses to the ceremony were Hilan Moe and Alma E. Everett. Mr. Phillips was a wagonmaker and farmer residing near the Olive-Hurley town line.

Mr. and Mrs. Floyd Longyear of Grand Rapids, Mich., are spending a few days at the home of Mr. Longyear's parents, Mr. and Mrs. Rensselaer W. Longyear.

Farmers who started their haying last week were hard put to it to cure and store the hay between showers which were heavy and of frequent occurrence. Mixed grasses with the exception of clover are still growing steadily and most farmers are preferring to wait for better weather before starting this outstanding big job of the season.

C. Seel and Miss J. Seel of Brooklyn were the guests recently of Mr. and Mrs. Edward Leyder. The visitors came here to attend the first communion of Edward Leyder, Jr., which took place at St. John's Church, Stony Hollow. Returning home, Mr. and Mrs. Seel were driven to New York city by Mr. and Mrs. Leyder.

The crests of two hills near the site of old Brown's Station village have appeared in the west basin of the reservoir due to heavy withdrawals of water into the east basin for long-term storage purposes. The water surface of the west basin now stands at 534.57 feet above high tide or approximately six feet below the normal flow line. The east basin is at the 538-foot level, or one foot below the crest of the spillway. Recent rains, though copious, have failed to raise contributory streams much, the water apparently being retained in the soil of the great Ashokan watershed which for months remained in a very dry state.

The daughter born to Dr. and Mrs. Hans Cohn last month has been named Ruth Helen.

Members of the Philip Chase family are summering at their place near Tice TenEyck Mountain. Mr. Chase is engaged in the wholesale grocery business in Poughkeepsie.

Mrs. Eleanor Merrihew, a former resident of the Tongore section of Olive, is spending two weeks with relatives in Shokan and vicinity.

Mr. and Mrs. Gabriel Richard of Flushing, L. I., have arrived at their place in the west end, formerly the Mrs. Emma Every farm.

Monday, July 2, 1866, the mar-

riage took place of Hilan R. Moe of Brooklyn to Alma E. Everett of the town of Hurley. The officiating clergyman was the Rev. M. Couchman, pastor of the West Hurley M. E. Church. Witnesses to the nuptials were Egbert and Mary Phillips. Mr. Moe later became the proprietor of a store in the old village of Olive.

Mr. and Mrs. C. E. C. Longyear of Albuquerque, N. M., are guests at the home of Mr. and Mrs. Golden Van Benschoten of Hemlock Knoll.

Paul Spaleck of New York city is spending his annual summer vacation at the Winchell farmhouse. The sacrament of the Lord's Supper will be administered in the Reformed Church of Shokan on Sunday, July 7, at 11:15 a. m. A similar service will be conducted in the Mt. Tremper Church at 10 o'clock next Sunday morning. The Rev. August Pfau of Shokan is pastor of both churches.

Mr. and Mrs. Glen Carothers of Columbus, O., who in June rented a camp near the Ridge road for a two-weeks' stay, have become so pleased with our section that they are going to spend another fortnight here. The couple are making a number of motor trips to points of interest in the county and mountains during their sojourn in Shokan.

Jerry Phillips of the Tonche Mountain neighborhood last week was called to cut grass with his team on the reservoir preserve. He began operations along this line on Monday.

Mr. and Mrs. Arthur Vanderbent of

ML. Vernon spent the week-end at the home of Mrs. Ganter's parents, Mr. and Mrs. Oscar Ganter.

Mr. and Mrs. Herbert Fleck and son, Charles, of the Bronx were numbered among the guests at the Shokan House last week.

Six Persons Killed In Week-end Crashes

Albany, N. Y., July 1 (AP).—Six persons, including a two-year-old boy, are dead today as the result of week-end automobile accidents in upstate New York.

The child, George Arthur Hoffman, died Saturday night in Hudson Hospital of injuries suffered when he tumbled under the wheels of his father's automobile. He ran out of the house just as his father backed the automobile from the garage and Hoffman said he "felt a slight bump". He stopped the car and found the rear wheel had passed over his son's head. The family was preparing to leave on a vacation trip.

Everett Merrill, 43, of Bolton Landing, was fatally injured Sunday as his automobile overturned on the Bolton Landing-Lake George highway. In Syracuse, Joseph A. Koegel, 22, and Paul Hansen, 19, were killed Sunday when thrown from a light

roadster after a collision with another machine.

Two persons were killed and nine others injured in western New York. The dead: Mary Sullivan, 42, of Rochester. Herbert Jenks, 55, of Oakfield.

The Sullivan woman was killed instantly as two cars met head-on in the Ridge road, nine miles east of Albion. Mr. and Mrs. George A. Wright, also of Rochester, with

whom she was riding, were taken to Albion Hospital with multiple injuries.

Louis O. Grainer, of Chicago, and his wife, occupants of the other car, were taken to the same hospital suffering from a broken kneecap and severe head cuts, respectively.

Jenks was killed when a car driven by Luther Wempe, 53, of Batavia, turned over on the Rochester highway, five miles east of

Batavia. Wempe's wife suffered fractures of both legs and Mrs. Lois Jenks, wife of the dead man, sustained fractures of the collarbone.

Mrs. Stella Shum, 18, of Buffalo, was in a critical condition after being struck by one car and run over by two others. Witnesses told police she was knocked down by a hit-run driver and run over twice by drivers who apparently failed to see her body in a downtown street.

GIRL, 9, ATTACKED AND SLAIN

The body of nine-year old Helen Glenn (left) was found in a swamp near Greenville, N. Y., after the child, daughter of a Greenville minister, had been missing since Wednesday. She had been assaulted and stabbed. Photo shows the Glenn family, the Rev. Ernest Glenn, Mrs. Glenn, and Donald, Betty Ruth and Ernest (right). (Associated Press Photo).

SLAYER ATTEMPTS SUICIDE

Alfred Volckmann, 19-year-old Greenville, N. Y., butcher boy, is shown at Albany Memorial hospital receiving treatment for poison he took after the confessed attacking and slaying of nine-year-old Helen Glenn, daughter of a Greenville minister. He said he attempted suicide after realizing the enormity of his crime. With him are Dr. L. B. Moneyford and Miss Alice E. Le Gallais, hospital superintendent. (Associated Press Photo)

WHERE BODY OF ASSAULTED GIRL WAS FOUND

Searchers heading the Catskill Mountains for nine-year old Helen Glenn, daughter of a Greenville, N. Y., minister, found the child's stabbed and assaulted body in a crude coffin on the bank of a creek a mile and a half from Greenville. Police and some of the searchers are shown examining the spot after the coffin had been uncovered. (Associated Press Photo).

Chinese Fear Loss Of Shantung Next

(Copyright, 1935, By Associated Press)
Tsinan, Shantung Province, China, July 1.—Unrest, arising from fear that Shantung may be the next North China province to come under the dictation of the Japanese army, was apparent today in this provincial capital.

Officials known to be unfriendly to Japan have come under the fire of Japanese authorities, although no demands have been submitted yet for a revolutionary overturn of the political and military situation such as that effected in Hopei province.

The uncertainty was reflected in the reported attempt of the Shantung Governor Han Ru-Chu to submit his resignation to the Nanking government.

The setting here resembled in many respects that in Hopei province before the Japanese forced the recent shakeup there.

Shantung has a large population of Japanese who are actively interested in the removal of all obstacles to Japanese trade and investments.

Prominent Speaker At Testimonial Dinner

There will be several prominent speakers at the testimonial dinner to be given Mr. and Mrs. Harry B. Merritt this evening at the King Crown Restaurant on Washington avenue. Toastmaster William B. Martin announced today that approximately 200 people would attend this dinner which is being given to Mr. and Mrs. Merritt who today retired from business after having conducted one of the best known meat and grocery stores in this locality. For many years Mr. and Mrs. Merritt have been the leading business folks of the Higinville section of Kingston and have worked hard to develop that section of the city.

The Merritt store was today taken over by the B. E. Craft Company, who will continue to operate the market along the same lines which proved so successful in the past. Among the speakers at the Merritt testimonial dinner this evening will be Mayor Conrad J. Heiselman, Senator Arthur H. Wicks, Assemblyman J. Edward Conway, City Judge Bernard A. Culliton, Chief of Police J. Allan Wood, Fire Chief Joseph L. Murphy, E. Frank Flanagan and Sam Bernstein, Jr., who will represent the Kingston Business Men's Association; Charles J. Mullen and Thomas J. Kennedy, who will represent the Higinville section of Kingston; John W. Matthews, C. Ray Everett, Raymond E. Craft and Ira V. D. Warren. The dinner will start at 8 o'clock.

Music will be furnished by Clancy's Continental six-piece orchestra.

Light-Hued Capes.
Paris (AP).—Light-hued capes are a smart accessory to dark costumes when the sun shines. Parisians are wearing short ones of white pique or chambray or oyster colored linen with black crepe or wool frocks.

MARKET FOR FRUITS AND VEGETABLES

New York, July 1 (AP).—(State Department of Agriculture and Markets) The following quotations represent prices on sales by commission merchants and other original receivers on the New York city downtown wholesale district up to 8 a. m.

Supplies of celery from Orange county, N. Y., and northern New Jersey were moderate. The big demand was fair, and the market ruled about steady. Offerings in the rough, packed in 2-3 crate realized \$3-\$3.50 for the best, but some fancy, brought \$2.75, occasionally \$4, while poor to ordinary ranged from \$2-\$2.75. High ball crates brought \$1.25-\$50 for the best and \$1-\$1.12½ for poorer. Bunched celery of one dozen stalks peddled out from 25-75 cents depending upon size. Supplies of California celery receipts were moderate. The market was about steady, and the demand was moderate. Offerings in half crates jobbed out at \$3-\$4 for the good to fancy and \$2.50-\$75 for fair quality.

New York upstate green pea receipts comprised of 5 carloads exclusive of the trucked in supplies. A large volume of the receipts showed ordinary to fair quality and condition and prices tended downward in a dull and weaker market. Jobbing sales on various varieties in bushel baskets were reported at \$1-\$1.25, occasionally as high as \$1.37½. Western states green peas of various varieties, packed in bushel hampers, jobbed out within the price range of \$1.12½-\$2 with most sales reported from \$1.25-\$5.

Strawberry supplies were moderate. The demand and trading was slow, and the market ruled weaker. Offerings showed variable quality and condition, some being more or less soft or otherwise unattractive. Oswego county, N. Y. strawberries of various varieties in quart baskets jobbed out from 10-15 cents, occasionally good quality brought 17-20 cents. Hudson river strawberries sold from 8c-15c.

Trucked in supplies of cherries from the Hudson valley were moderate as was the demand and the market was generally inactive. Sweet cherries of various varieties in 4 quart climax baskets brought 25-40 cents for white and from 40-65 cents for red and black. Sour cher-

ries of various varieties in quart baskets sold from 7-10 cents for red and 10-11 cents for black. Four quart baskets ranged from 25c-40c depending upon variety and size. Red currant receipts from the Hudson valley were relatively light. The demand was only moderate and sales were reported from 10-14c per quart basket depending upon size and quality. Gooseberries ranged from 7c-11c and red raspberries brought 8c-11c per pint basket.

Three Injured In Auto Mishap

Three people were injured when two cars collided near the Marlborough-Milton town line about five o'clock Sunday morning. According to the information given to Sergeant Lockhart, who investigated the accident, the cars met almost head on during a heavy fog and both cars were considerably damaged.

The cars were driven by Michael Richman of Highmount, N. Y., and Monty Osborne of 125 West 12th street. With Osborne were Gertrude Olsen, 22, and Charles Olsen, 15, of Brooklyn, Anna Rosate and her two sons, John and Louis Rosate.

Three people in the Osborne car were injured and were taken to Vassar Brothers Hospital. Poughkeepsie. They were Louis Rosate, aged 10, the extent of whose injuries could not be determined until X-rays were taken, but who was suffering from a possible fracture of the skull; Miss Olsen, who had an injured knee and a laceration on the ear and the driver of the car, who was injured about the chest and leg.

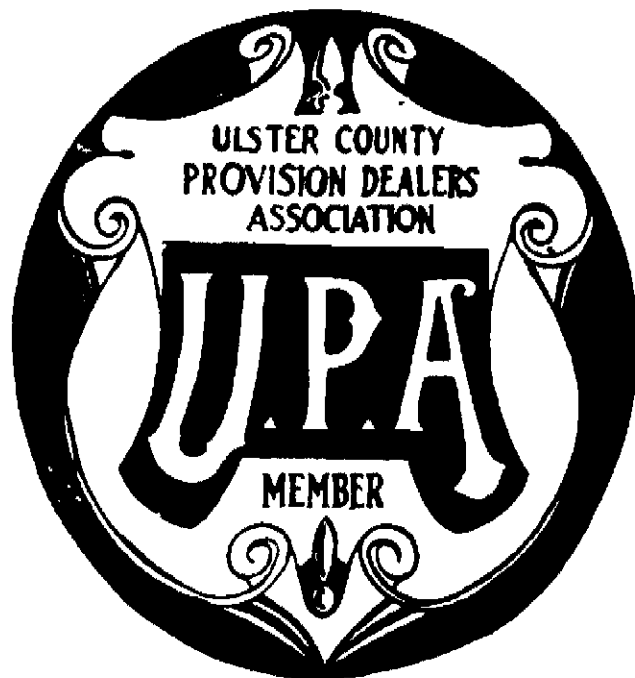

450 Men Returned to Work on ERB Today

The local ERB which shut down work on work relief projects the last two weeks in June, owing to the fact that the allotment of funds had been exhausted, resumed work on all work relief projects today, and approximately 450 men returned to work.

Schoellkopf Will Explain State Plan

Alfred H. Schoellkopf, chairman of the State TERA, will deliver a talk this evening from 6:35 to 6:45 o'clock over Station WEAF at which time he will announce the state's plan for caring for the unemployed who will not be absorbed in the new Federal Works program. This is the first official information to be given out and will prove of great interest to those now on the relief rolls of the city as well as to those in charge of administering relief.

Charles Zimmerman Hurt in Accident

The police department received a request this afternoon to notify the family of Charles Zimmerman of Port Ewen that he had been injured in an auto accident at Rifton and was being brought to the Benedictine Hospital. No details as to how the accident happened was obtained at the time of going to press.

THREE WOMEN AND MAN ARRESTED IN DICKINSON SLAYING

A man police said was William Lee Ferris (left) and three women (right) were taken into custody at Fort Wayne, Ind., for questioning in connection with the mystery slaying of Howard Carter Dickinson, prominent New York attorney and nephew of Chief Justice Charles Evans Hughes. Ferris had been widely sought in the killing, which occurred in a Detroit park. The women (left to right) gave their names as Loretta Jackson, Flossie Jackson and Lillian Miller. (Associated Press Photos).

Volunteer Firemen Oppose Charter

(Continued from Page One)

disputes between members of companies or between companies.

Constitution of said board as the trustees of the Fire Pension Fund with charge and control thereof.

3. The proposed new charter makes radical changes in respect to the Fire Department. Under said charter the following is made effective:

Abolition of the Board of Fire Commissioners;

Authority and jurisdiction over the Fire Department centralized principally in the mayor;

The fire chief to be appointed by the mayor "to hold office during his pleasure" unless otherwise provided by law;

Said fire chief is to be the head of the Fire Department and given power, "subject to the provisions of law and the ordinances of the Common Council," to administer the Fire Department;

Said fire chief is to have power to make, adopt and enforce reasonable rules and regulations for the Fire Department;

The Board of Estimate is created consisting of the Mayor, Commissioner of Finance and President of the Common Council;

The Board of Estimate is to have power to determine the number "of officers and members" of the Fire Department.

The Common Council is to have power to pass ordinances for the government of the Fire Department and regulate the duties of the Fire Department, its officers and members.

Said Board of Estimate is to have the power of appointment to fill vacancies in the Fire Department of officers and members.

4. The proposed new charter vests the mayor with full authority to hear, try and determine all complaints against officers and members of the Fire Department and in such determination to punish any officer or member "by reprimand, by forfeiting and withholding pay for a period not to exceed 30 days or by dismissal from office."

Your committee carefully considered the matters and things aforesaid, including the oral arguments of the persons attending and participating in the matters and things presented by the representative of the mayor. As related to the duties of your committee, investigation and examination was made as to the efficiency of the Fire Department, Volunteer and Paid, as it now exists under the provisions of the existing charter and as the efficiency of the Fire Department may be affected under the provisions of the proposed new charter. In this investigation and examination, your committee considered two factors deemed to be of paramount importance, namely, the efficiency of the officers and members of the Fire Department, Volunteer and Paid, and the improvement or impairment of firemanic service to the public, and the following is submitted as a result thereof:

(a) That a high character and standard of firemanic service has been established and maintained, and is being maintained, in the Fire Department, both in the volunteer and paid service, as it is now constituted and governed under the provisions of the existing charter; that such standard of service was second to none in the state of New York; that the morale of the officers and members of the Fire Department, both in the volunteer and paid service, was and is of a character conducive to this high standard and character of service; and that the business interests of the city, as well as the home owners thereof and others concerned, recognize and appreciate the existing firemanic service accorded by the Fire Department as now constituted and governed;

(b) That the proposed new charter, not only in respect to the Fire Department but in respect to all other branches of the city government, creates a centralization of power and authority vested in the mayor and a very limited number of other persons; such centralization of power, in the opinion of your committee, is not conducive to efficiency either in the Fire Department or in the other branches of the city government, and is contrary to the underlying principles of American institutions.

(c) That no charter tinkering should be permitted which in any way would tend to impair the present high standard of service now rendered by the Fire Department, which service is of an extremely important character involving the preservation of life and property from the menace of fire, that the proposed new charter, in the opinion of your committee, tends to create a condition which would impair the efficiency now obtaining in the Fire Department for the following reasons: That the Board of Fire Commissioners, which is an independent body appointed for a fixed term of

years as heretofore noted, acts without any restraint, political or otherwise, in the performance of duty; that experience under said board has demonstrated that the officers and members of the Fire Department, both volunteer and paid, have received the proper cooperation from said board and have not been subjected to political influence in the performance of duty which would undoubtedly result under the centralization of power contained in the proposed new charter; that by reason of the independence of action on the part of the Board of Fire Commissioners, and of the confidence of the firemen in said board, the morale of the service has been greatly strengthened and is of a very high character; that the officers and members of the Fire Department are imbued with the fact that meritorious service is the predominant factor and not political preference or prestige; that under the centralization of power established by the proposed new charter your committee firmly believes that a condition of mind would be created among the officers and members of the Fire Department involving uncertainty as to tenure of employment and course of action, thereby impairing to a great extent the efficiency of the service as it has been established and is now being maintained; that impairment of service would be further caused by reason of the fact that removal power is vested solely in the mayor, whereas under the existing charter the removal power is vested in the three members constituting the Board of Fire Commissioners, the officers and members of the Fire Department realizing that the three members of said board, holding fixed terms, would be independent of political influences in determining complaints involving removals and not be subject to the will of one man who obviously, although not intentionally, would be influenced by political considerations;

(d) That the chief of the Fire Department, although constituted the head thereof under the proposed charter, has no power or authority whatsoever in reference to the employment or dismissal of officers and members of the department of which he is to be the head; such power and authority is to be vested in the Board of Estimate comprised of persons whose many duties under the proposed charter would not permit close application to the duties and functions of the Fire Department such as is now accorded by the Board of Fire Commissioners;

(e) That no good cause was shown at the meetings held by your committee, or disclosed by its investigations, which demonstrate any necessity for the adoption of the proposed new charter; on the contrary, it was demonstrated that the high standard of service now maintained by the Fire Department would be seriously impaired if said proposed new charter were adopted; and

(f) That the best interests of the people of the city of Kingston would be served, so far as the preservation of life and property from the menace of fire is concerned, by the continuance of the Board of Fire Commissioners and the existing system of government, management and control of the Fire Department; that this fact is clearly established by the present condition of service in the Fire Department maintained by the action of three men constituting the Board of Fire Commissioners who, by reason of a fixed tenure of office, have freedom of action for the good of such service.

The foregoing is respectfully submitted for the consideration of and action by your association.

Dated, June 27, 1935.

Signed by WM. B. MARTIN, Chairman, for the Charter Committee of Veteran Volunteer Firemen's Association.

Signed by EDWARD F. MORAN, President for the Veterans Volunteer Firemen's Association of Kingston, N. Y., Inc.

The above report was unanimously adopted by the committee at their meeting on Thursday evening, June 27th, and on June 28 the Veterans' Association met and adopted the following:

The Report of the Committee to investigate the proposed new Charter of the City of Kingston was duly presented at this meeting for consideration and action. The committee submitted with its report a copy of the existing charter of the city of Kingston and a copy of the proposed new charter, together with the arguments and other proceedings had at the meetings of said committee.

After due consideration of said report and the proceedings had in connection therewith, the following resolution was offered and duly adopted:

Resolved, that the report of the committee appointed to investigate the proposed new charter of the City of Kingston as it affected the Fire Department of said city, be and the same hereby is approved and adopted; and be it further

Resolved, that this association oppose in every proper and legitimate manner the adoption of said proposed new charter to be voted upon at a Special Election to be held in the City of Kingston on the 23rd day of July, 1935; and be it further

Resolved, that the secretary of this association communicate with member companies of this association as to the action taken at this meeting and request the cooperation and support of said member companies in opposing the adoption of said proposed new charter; and be it further

Resolved, that this association solicit the aid and support of all firemen and their friends in opposition to the adoption of said proposed new charter.

Local Death Record

Alida May, wife of Oscar Davis, died in Kingston this morning. The funeral will be held from the parlors of A. Carr and Son, on Wednesday at 2 p. m. Interment will be in the Willwyck Cemetery.

Services were held this afternoon for Gertrude Terwilliger Roundburg, who died on Friday, at 8:30 o'clock from the residence, 145 Pine street. The Rev. F. B. Seelye and the Rev. A. G. Carroll officiated.

The funeral of Louis A. Haulenbeek was held this morning from the parlors of A. Carr and Son, 1 Pearl street. The services were in charge of the Rev. Clarence Brown, pastor of the Wurts Street Baptist Church. Interment was in the Hurley cemetery.

James P. Bunting died in this city on Saturday. The funeral will be held Tuesday morning at 8:30 from the parlors of A. Carr and Son, 1 Pearl street, and from St. Mary's Church at 9 o'clock, where a solemn Mass of requiem will be offered for the repose of his soul. Interment will be in St. Mary's Cemetery.

Word was received this morning by James Clare of the death of his nephew, Benjamin Powers, well known politician of West New York. He is survived by his wife who was Dorothy Higgins and three sons, Harold, Ben Jr. and Robert.

The funeral of Frederick Lucas was held from the parlors of N. D. J. Murphy this morning at 8:30 and at St. Mary's Church at 9 where a solemn Mass of requiem was offered for the repose of her soul by the Rev. Father James P. Moore. Interment was in St. Mary's Cemetery. The Rev. Dean Stanley pronounced the final absolution.

Sarah A. Crowell, widow of Charles H. Sutton, died in Kingston on Saturday. She is survived by three daughters, Alice E. Sutton, Bertha, wife of Abraham H. DeForest of this city, Harriet, wife of Frederick Childer, also of Kingston; one son, Nathan R., one grandchild, Harlow Frederick DeForest of Kingston; two sisters, Maria Palen of Kyserke, and Mrs. Alice Rickerson of Johnson City, N. Y., and one brother, DeWitt H. Crowell, of Saugerties. The funeral services will be conducted privately with interment in Willwyck Cemetery. Friends may view the remains at the residence, 61 Prince street, between the hours of 7 and 9 o'clock.

Edith Lounsbury Pink Merritt, widow of Jacob V. Merritt of 113 Emerson street, died in Kingston on Sunday. Mrs. Merritt was a member of the Hurley Reformed Church and was very well known throughout this area. Her death will come as a great shock to her wide circle of friends.

To the Patrons of the Harry B. Merritt Market:

In retiring today from our business, after having sold our store to John W. Matthews, we do so with a deep sincerity of appreciation for the many friendships which have accrued throughout the years and which we value most highly. These friendships have been the inspiration which built this business from its very beginning, and through each stage of its growth, to one of the largest markets in the Hudson River Valley.

We are mindful of the abiding interest which the people of this city and county have here—of the good will which has made of this business a huge and happy family affair—bringing together people from all parts of Kingston and Ulster County, daily and throughout the years.

We are taking this means of thanking every one of you and assure you of our continued interest in your welfare.

MR. and MRS. HARRY B. MERRITT

FINANCIAL AND COMMERCIAL

By CLAUDE E. JAGGER

Central Hudson Corp.
Issues Bonds Today

New York, July 1 (AP).—Central Hudson Gas & Electric Corporation announced today an issue of \$2,750,000 first and refunding mortgage bonds 3½ per cent series due 1965.

The bonds, dated March 1, 1935, will be redeemable at 105 per cent before March 1, 1945, the premium decreasing one-quarter of one per cent on that and each succeeding March 1 until 1964 when they will be redeemable at par.

The bonds are offered by Edward B. Smith & Co., Kidder, Peabody & Co., Estabrook & Co., Lazard Freres & Co., Inc., of New York, and Stroud & Co., Inc., of Philadelphia.

Covered Dish Dinner.
The Ladies' Aid of the Wurts Street Baptist Church will hold a covered dish dinner Tuesday at the home of Mrs. Terwilliger, 133 Bruyn avenue. All the ladies of the church are invited.

Excelsior Meeting Postponed.
The regular meeting of the Excelsior Hose Co. has been postponed until next Monday night on account of the Harry Merritt banquet to-night.

Senate Heads Into
Big AAA Power Strife

Washington, July 1 (AP).—The senate heads this week into another of the major controversies of this troubled congress—the fight over the amendments to broaden and bolster the AAA's powers.

The amendments, revised in the light of the supreme court decision that struck down NRA, have finally been approved by the senate agriculture committee, and the debate on the floor is due to start tomorrow or Wednesday.

Notable clashes are expected. Senator Borah (R-Idaho) has been busy preparing an attack on the amendments. Administration senators backing the bill are expected to reply.

The bill contains a provision designed to forestall suits to recover processing taxes, which are facing several court tests. It gives Secretary Wallace broad authority to "order" marketing control under agreements by growers and processors.

The committee, however, has deleted provisions permitting Secretary Wallace to use 30 per cent of the nation's customs receipts in financing the export of surplus farm commodities. Chairman Smith (D-S.C.) of the agriculture committee, said the group of legislators believed this export subsidy plan would "invite disaster."

Smith said the bill had been reconciled with the NRA decision by making it apply "only in reference to interstate commerce."

Even before the senate moved to debate the bill, the American Liberty League opened an attack. The League called the amendments a "dishonest" attempt to avoid a court test on the AAA's constitutionality.

Plan Special Events
For Fourth of July

Stuart Parks, director of supervised play at the city playgrounds, announced today that there would be special programs for the boys of the city at Forsyth Park, Hasbrouck Park and Block Park on the Fourth of July. He also stated that no fireworks would be permitted to be set off in the playgrounds that day by those using the grounds.

Supervised play, which got under way at the parks last Friday, has proven very successful so far and over 600 children have enrolled at the various parks. Of this number one hundred are girls. Small game activities are being enjoyed by the children, and surprising as it may seem the old game of checkers is meeting with renewed interest in the parks and all of the checker boards are in constant use.

Tuesday a practice game of soft ball will be played between teams from the Barmann playground and Forsyth Park. The Forsyth Park grounds, and Hasbrouck Park will play the Athletic Field seniors at Hasbrouck Park while the juniors of both parks will play at the Athletic Field.

Meyer Kaplan on
City Zone Board

Mayor C. J. Heiselein has appointed Meyer Kaplan as a member of the city zoning board to fill the vacancy caused by the death of Mr. Kaplan's father, the late Morris Kaplan. Mr. Kaplan is appointed to fill the unexpired term of his father on the board. Mr. Kaplan is one of the younger business men of the city, and is well qualified to serve on the board to which he had been appointed.

Baruch's Answer
New York, July 1 (AP).—Bernard M. Baruch, a twinkling eye, said he didn't want to be a "Sinbad on the back of the New Deal," so he refused the job of administering the agricultural adjustment act. There have been many reports about the supposed connection of the tall, white-haired financier with this or that agency of the Roosevelt administration. The complete story of Baruch's refusal to direct the agricultural adjustment act was disclosed for the first time, however, as he called for a vacation in Europe this week-end.

Minister Summoned.
Mexico City.—President Lazaro Cardenas summoned his new ministers to their first cabinet session. A presidential order permitting political rallies to return was expected to result.

THE PEOPLE OF THE STATE OF NEW YORK, BY THE GRACE OF GOD TO HAVE AND INDEPENDENT
JOHN F. GUTHRIE, ANDREW SCHILLING, GEORGE SCHILLING, CATHERINE DENVER, JULIA POST, MARY HOFFER, LILLIE KRIEGER, LILLIE KRIEGER, MARY KETTERER, HARRY LEWIS

GREETING:
YOU AND EACH OF YOU ARE HEREBY CITED TO SHOW CAUSE at a Surrogate's Court to be held in and for the County of Ulster, at the Surrogate's Office in the City of Kingston, N. Y., on the 21st day of July, 1935, at two o'clock in the afternoon of that day, why a certain instrument in writing, dated at Kingston, N. Y., on the 21st day of June, 1935, and bearing the signature of the said JOHN F. GUTHRIE, should not be granted, admitted to probate and recorded as the last Will and Testament of MARGARET LEWIS, late of the City of Kingston, Ulster County, deceased, upon the petition of CATHERINE DENVER, of the City of Kingston, the Executor named therein.

IN TESTIMONY WHEREOF, we have caused the seal of said Surrogate's Court to be hereunto affixed, WITNESSES, Hon. J. L. S. GEORGE F. KATZMAN, Surrogate of said County of Ulster, at Kingston, N. Y., this 21st day of June, 1935.

CLERK OF THE Surrogate's Court
A Public Hearing will be held in the Common Council Chamber, City Hall, Kingston, N. Y., at 2 P. M., Tuesday, July 2nd, 1935, in the matter of the petition of request of appointment of the executor of the last Will and Testament of CATHERINE DENVER, late of the City of Kingston, N. Y., deceased, upon the petition of CATHERINE DENVER, of the City of Kingston, the Executor named therein.

Jack Crawford Wins
Over Wood Today

Wimbledon, Eng., July 1 (AP).—Jack Crawford, Australia's top-ranking player, today eliminated Sidney B. Wood of New York, 6-4, 6-3, 6-5, 6-1, in the quarter-final round of all-England tennis championships.

Wood's defeat came as a stunning surprise to the American contingent, particularly those looking ahead to Davis Cup warfare a few weeks hence.

The blond New Yorker generally had been regarded as the most formidable of Fred Perry's challengers and had been a hot favorite to win over Crawford whose play has been far below standard in recent months.

Crawford's victory sent him into the semi-finals where he will meet Perry who played spectacular tennis as he eliminated the towering Czech, Roderich Menzel, 9-7, 6-1, 6-1.

Meanwhile Helen Jacobs, the America title-holder, moved into the quarter-finals of women's singles with a 6-2, 6-1 triumph over Mrs. E. C. Peters of Great Britain.

Moving along with her were Dorothy Round of Great Britain, the defending champion; Joan Arntson of Australia; Hilda Khabwinkler Sperling of Germany; Mme. Rene Mathieu of France and Kay Stammers, British left-hander.

The Crawford-Wood match lasted two hours and 20 minutes and both were exhausted at the finish but they were forced to stand at attention for a minute while the queen visited around the royal box.

The crowd gave the pair an ovation as they walked off the court with their arms around each other's shoulders.

Baron Gottfried Van Cramm, Germany's top-ranking player and second seeded star, advanced to the penultimate round at the expense of Vivian McGrath of Australia in a four set triumph, 6-4, 6-2, 4-6, 6-1.

Ask Householders to Cooperate With City
The Board of Public Works is receiving a number of complaints from residents that after the street in front of their homes has been swept by one of the city sweepers that other householders would immediately dump the clippings from their lawns and other refuse out into the street that had just been swept clean.

It is impossible for the Board of Public Works to keep the streets clean unless householders cooperate and discontinue this practice. There is an ordinance which prohibits it, and unless it is complied with the board will be forced to direct the police department to make arrests under the provisions of this ordinance.

The city is spending a considerable sum of money keeping street sweepers at work in the desire to keep the streets neat and clean and it is up to citizens to cooperate.

TANNERSVILLE CCC BOYS FOUND MISSING WOMAN

Sunday night a woman who is employed at Elka Park in the Catskills, became lost by taking a wrong trail in the mountains. A general alarm was sent out and boys from the CCC camp at Tannersville turned out in a body to hunt for the missing woman, who they found early this morning. The woman was highly excited and nervous from her experience but regained her composure when returned to her home in Elka Park.

Passed a Red Light
Crash Followed Here

At 11:45 o'clock this morning Mrs. Clara D. Patterson of Sussex, N. J., drove her car past the red traffic light at the Rondout Creek Bridge entrance and struck a car driven by Philip W. Fleicher of Rifton. A girl in the Fleicher car was slightly injured and both cars were somewhat damaged. Fleicher arrested Mrs. Patterson on a charge of passing the red light and later in police court she was fined \$5.

Stolen Car Recovered
Robert Boyle of 609 Delaware avenue reported to the police that his Buick sedan had been stolen from in front of his house Sunday night. The car was later found abandoned on Chambers street by one of the radio cars in charge of Officers Harry Martin and Robert F. Healey.

Two Great Areas Join
As New Bridge Opens

Catskill, N. Y., July 1 (AP).—The Catskills and the Berkshire areas will be joined tomorrow as the new \$2,350,000 bridge between Hudson and Catskill will be formally opened to the public.

The span, under construction for two years, crosses the main channel of the Hudson River from Catskill to historic Rogers Island where, local legend claims, the last great Indian battle on New York state soil was fought. From that point, the bridge spans the east channel to the mainland, three miles south of Hudson.

Two V-shaped roads on each bank connect the bridge with main arteries of travel, the east side "river route" and, by a short connection, Route 9-E, and the west shore, highway, 9-W.

The span will allow motorists traveling east and west to make a saving of over twenty miles of congested highway and city traffic. The erection of the bridge has been under the direct supervision of the New York State Department of Public Works and the New York Bridge Authority, the membership of which includes Clifford L. Miller of Claverack, chairman; Robert Hoe, of Poughkeepsie, and Addison P. Jones, of Catskill, with Mayor Frank Glynn, of Valatie, as secretary. It will be dedicated as a feature of Hudson's celebration of the centennial of its incorporation as a city.

All local delegations which will take part in the parade will meet at the Governor Clinton Hotel tomorrow morning at 10:30 o'clock. Business houses or individuals who have attractive floats or cars and who have not yet signified their intention of participation are also requested to join the others at the hotel.

U. P. A. Collects 19 Hits and Defeats Chichester by 9-5

The U. P. A. blasted two Chichester pitchers for 19 safeties to chalk up a decisive 9 to 5 victory yesterday at Chichester. Don Kelly poled out two homers and a single while Murphy connected for two doubles and three singles in six trips to the plate.

Joe Scully scattered seven hits effectively for the provisioners, although walking 10 batters, he was superb in pinches and that, coupled with superior playing of his teammates kept the Chichester men on the bags through the game. Keator led the Chichester attack with three singles.

Van Deusen and Leskie added to the bombardment with three bingles apiece. The locals clinched the game with four runs in the 8th.

On July 4th U. P. A. will travel to Pine Hill.

The box score:

U. P. A.	AB	R	H	PO	A	E
Van Deusen, 2b	5	3	3	2	3	0

Grant, Kelly; name of field, Chichester; date, June 30.

Big League baseball stars who entertain notions of reaping a golden harvest barnstorming after the curtain has been rung down on the regular season had better get the ideas out of their heads, for the owners are not likely to be as generous in granting permission to do so as they have been in the past.

Too many of the lads who engaged in post-season baseball have failed to show anything approaching their best form and much of the blame is due to the fact that they have been "over baseballled."

Perhaps it is slightly inaccurate to say that the long slump which Gehrig and Lefty Gomez of the New York Yankees have suffered was entirely due to their taking part in the world tour but the fact remains that, of the group who invaded the Far East for the baseball series late last fall, only Jimmy Fox, the Athletics' slugger, has not felt the blight of lost form.

Babe Ruth, the outstanding player of the Japanese series, quit the Boston Braves in disgust when he failed to show enough to warrant his continuing as a regular player. Certainly, playing ball abroad did not help his already shopworn legs nor tend to increase his chances of making the grade in the National League.

Deane Not Up To '34 Form.

The disappointing showing of the Cardinals in the National League pennant race can be traced to the poor showing of the Dean boys, Dizzy and Daffy, passed up few if any opportunities to make an honest dollar last fall and winter. They didn't limit their activities to baseball but invaded every possible field where their baseball reputation would net them a return.

Their records for the present season would stamp them as rather ordinary hurlers, nothing like the pair who stood the National League on its head and pitched the Cardinals to a sensational victory in the world series against the Detroit Tigers.

Dizzy has stood up better than his younger brother, at that. Paul's record showed, nearing the end of June, 7 defeats against 7 victories. He has shown little of the ability that led many experts to predict that he would in the future surpass anything Dizzy could do. In his hour of failure he has tried to blame everyone on the field, most of all the umpires. In a recent start against the Brooklyn Dodgers he could not survive the first inning.

Perhaps it is being just a little hard on the Dean boys to make them shoulder the entire blame for the position the Cardinals occupy in the pennant chase. Other causes can be found, with a little investigating.

No Substitute For Tex.

For one thing the Cardinals have not replaced Tex Carleton, whom they traded to the Cubs last winter. Carleton turned in 16 victories last season and that number of wins would help a lot.

The former Cardinal hurler has been nothing sensational for the Chicago team, his record to date showing 5 victories against 2 defeats. But he has continued to hold his Cleveland from Atlanta to help out during Frank Fylak's absence, is a Boston College graduate. He was gray-haired at 26.

AS FORMER CHAMPION MAX BAER WAS MARRIED

Max Baer, former heavyweight boxing champion, is shown with his new wife, the former Mrs. Ellen Sullivan, just after the two were married at Washington, D. C. The new Mrs. Baer (she's Maxie's second wife) managed a Washington coffee shop. Here the newlyweds are being congratulated by Justice Dickinson Letts. (Associated Press Photo).

Baer's Friends Give Time to Speculations

New York, July 1 (AP).—Friends of Max Baer speculated today on the possibility that the former heavyweight champion and his black-haired bride might be headed for a movie career in Hollywood.

Some suggested he might take a tip from his conqueror, James J. Braddock, who is rehearsing with his wife for a stage appearance.

Mr. and Mrs. Baer, who were married Saturday in Washington, expect to leave for Hollywood in the near future. Baer said he probably would take up motion picture work.

Whether Baer ever fights again is uncertain. His bride, who said she had never seen a fight, is opposed to her husband's appearing in the ring again.

"Just as you say, umppkin," the playboy "champ" said yesterday when Mrs. Baer voiced her dislike of fighting. Later when the fight question came up again, Max said "Maybe."

The newlyweds spent most of yesterday at the penthouse apartment of Jay O'Brien, who was a witness at their marriage.

In the morning Baer accompanied his wife to a Catholic Church. Mrs. Baer voiced the hope she would not be excommunicated because of Baer's previous divorce.

If she is, she is "willing to face it," she declared. They were married in a civil ceremony.

Socials Defeat P. N. A. Of Po'keepsie, 10-4

With Leo Komosa fanning 15 batters and allowing but six hits, the North Rondout Socials defeated the Poughkeepsie P. N. A. at Hasbrouck Park yesterday afternoon. McCormack was on the mound for the P. N. A. and was nipped for 14 hits.

The game was tied at 4 all in the sixth but the Rondouts closed the score in the next frame when Berardi rapped out a three-bagger with three aboard.

The box score:

Soft Ball Tuesday Night.

Tuesday evening at 4:30 o'clock, the newly organized soft ball team of the American Mechanics will play the Central Firemen on the diamond adjoining St. Mary's rectory. A hot contest and a lot of fun is anticipated.

Some great batters to through whole seasons without hitting a home run with the bases full, but Al Simmons of the White Sox recently hit two such drives within three days.

Eddie Phillips, catcher brought on by Cleveland from Alabama to help out during Frank Fylak's absence, is a Boston College graduate. He was gray-haired at 26.

Plymouths Defeat Huron Indians, 9-7, In 11th Inning Rally

The Plymouth-Reynolds of Poughkeepsie nosed out the Huron Indians in an 11 inning tussel yesterday afternoon at the Kristic Athletic Field at Rosendale by 9-7.

Lievre started on the mound for the Indians but was relieved by Hornbeck in the 7th frame with the count at 7-3 in favor of the bridge city boys. In the eighth, the Tribe pushed two runs across and another in the ninth to tie up the count at 7 all. Arlington, pinch hitting for Rank, put over the tying run. The tenth inning went scoreless, but in the 11th, the Plymouths counted with two tallies and held the Indians in their half of the frame.

Regan was the star with the stick for the Indians with four out of five.

On July 4, the Hurons play a double header with the Kaslich A. C. Plymouth-Reynolds, Poughkeepsie.

CORDIS BALL TEAM

WILL SEE ACTION

Cordis Hose soft ball team will play Union Hose tonight at Cordis Flats. Tuesday evening they will play the Connelly A. C. and on Friday the Rescue Hook and Ladder Co. at Cordis Flats.

The coast guard has asked the work relief administration for \$27,600.000 with which to build 183 boats for use in operations against liquor and narcotic smugglers. A bill in the senate would permit the government to establish anti-smuggling zones 50 miles off the coast.

The game is called for 6:30.

Soft Ball Game

Tuesday evening the soft ball team of the paid firemen will play the Jr. O. U. A. M. team on St. Mary's lot on Flatbush avenue. The game is expected to be very exciting and a large turnout of the followers of both teams are expected to be on hand. The firemen will probably use Williams and Engr as their battery and for the Mechanics Hoyt and Markie. The game is called for 6:30.

Score by innings:

CORDIS BALL TEAM

WILL SEE ACTION

Cordis Hose soft ball team will play Union Hose tonight at Cordis Flats. Tuesday evening they will play the Connelly A. C. and on Friday the Rescue Hook and Ladder Co. at Cordis Flats.

The coast guard has asked the work relief administration for \$27,600.000 with which to build 183 boats for use in operations against liquor and narcotic smugglers. A bill in the senate would permit the government to establish anti-smuggling zones 50 miles off the coast.

The game is called for 6:30.

Soft Ball Game

Tuesday evening the soft ball team of the paid firemen will play the Jr. O. U. A. M. team on St. Mary's lot on Flatbush avenue. The game is expected to be very exciting and a large turnout of the followers of both teams are expected to be on hand. The firemen will probably use Williams and Engr as their battery and for the Mechanics Hoyt and Markie. The game is called for 6:30.

Score by innings:

Plymouth-Reynolds 10 1 4 1 0 0 0 0 2-9

Hurons 0 0 2 0 1 1 0 0 2 10-7

Two Escape From Wallkill Prison

Messages were received by the
sheriff's office and the city police de-
partment early this morning asking
that a lookout be kept for two
prisoners who escaped from the
Medium Security Prison at Wallkill
about 9:30 Sunday night.

The missing men are John Crim-
mins, alias John Collins and Edward
Eladl. They are described as fol-
lows:

John Crimmins, alias John Col-
lins. Age 22; height 5 feet 9 1/2
inches; weight 149 pounds. Dark
chestnut hair; blue eyes. He wore
a blue shirt and grey pants. He has
two vertical scars between the eye-
brows, scar on right side of abdomen
from bullet wound and scars on both
shins.

Edward Eladl. Age 28; height 5
feet, 5 1/2 inches; weight 117 pounds;
light chestnut hair; greenish slate
eyes, slim build, light complexion.
Wore white shirt and grey pants.
Tip middle and ring finger, left hand
amputated. Diagonal scar right side
lower jaw. Small diagonal scar
upper lip.

MASSSES AT STONY HOLLOW AND WOODSTOCK CHURCHES

Father Heaton announced at St.
John's Roman Catholic Church,
Stony Hollow, at the 9 o'clock Sun-
day Mass that there would be an ad-
ditional Mass during the summer
months at 11 o'clock. He also stated
that there would be an early Mass at
St. Joan of Arc chapel at Woodstock
at 9 o'clock. The Masses at Stony
Hollow will be at 9 and 11 o'clock
and at Woodstock at 9 and 10:30.

Downtown Republicans Meet
Regular monthly meeting of the
Downtown Republican Club will be
held tonight at 8 o'clock. All mem-
bers are asked to be present as busi-
ness of importance is to be trans-
acted.

CULTURE OF TIMES MIRRORED BY SHIPS

Far Cry From Normandie to the Dugout Canoe.

Washington.—When the Normandie,
largest ship afloat, steamed into New
York harbor, another thrilling chapter
was written in maritime history.

Her quick crossing from Havre to
New York, her air-cooling system, il-
luminated glass decoration, immense
swimming pool and scores of other
outstanding features will satisfy the
modern traveler's craving for speed,
size, and luxury.

"In every age, ships have mirrored
the culture of their era," says the Na-
tional Geographic society.

"It's a far cry from the stream-lined
Normandie to what was probably the
first boat, a tree trunk to which a
savage clung. Transitions from a log,
to a dugout canoe, to a boat made of
planks caulked with pitch were made
early in civilization. Soon armored
Vikings in their sturdy boats of rivet-
ed, overlapping oak timbers rode the
green combers of stormy, northern
seas, and the oars of long, low galleys
flushed in the sunny Mediterranean.
Many of the galleys scudded along un-
der a square sail, but they were pro-
pelled chiefly by the efforts of weary
slaves. Galleys persisted as late as
1830, when captives still manned
the ships of Barbary pirates.

In the Middle Ages,
"The Phoenicians, first sailors to ex-
plore the full length and breadth of
the Mediterranean, modified the galley.
Afraid of being swamped by following
seas breaking over it, they raised the
stern of the craft.

"During the Middle ages, the desire
to travel longer distances led to the
abandonment of oars for the crowded
galleons of the Spanish and Portuguese
galleons. In galleons, the high stern
reached exaggerated heights. These
picturesque but clumsy craft were built
primarily to transport large quantities
of gold and other precious spoils, not
for speed.

"Built for rougher waters and to
chase fleet schools of fish, northern
boats were sturdier and swifter. Some
of the boats which darted like wasps
around the ponderous Spanish Armada
were the small, fast boats of English
fishermen.

"Since the time of Alfred the Great,
England has maintained a navy to pro-
tect her from attacks by sea. That
the king's ships meant business is
shown by the fact that until the end
of the Eighteenth century, their inter-
iors were painted red to make the
bloodshed in naval battles less obvi-
ous.

"After Vasco da Gama sailed around
the Cape of Good Hope and reached
the Malabar coast, fleets of East In-
dianmen began sailing out to India. The
ships carried 20 or 30 guns, were mas-
sive and rather slow.

"Ships built to run to the West In-
dies, on the other hand, were faster,
because they carried what cynical cap-
tains referred to as 'perishable car-
goes'—fruit, and slaves packed in
'spoon-fashion' below decks. Trade in
slaves, opium, and tea, as well as gold
rushes, led to rivalry among American
and English shipyards in building
large, fast sailing ships. These found
their climax in the clipper ships, the
first of which was built in Baltimore
about 1830. Most of the clippers from
New England shipyards carried tea
from China, or gold seekers to San
Francisco and Australia.

Dramatic River Races.

"With the opening of the Suez canal
and the growing use of steamboats, the
popularity of clipper ships waned. In
1807, Robert Fulton's Clermont steamed
up the Hudson at five miles an hour,
while a man on its deck ran about
listening. Wherever a hiss told of es-
caping steam, he stopped up the leak
with molten-lead. By 1818, steamboats
reached the Great Lakes, and by 1822
they moved up the westernmost tribu-
taries of the Missouri, carrying pio-
neers into the great Northwest. Fuel-
ing these wood-burning boats was a
problem, as cottonwood trees near the
banks made poor fires, and to saw
wood inland meant risking attacks by
Indians.

"In the latter part of the Nineteenth
century, over 2,000 steamboats regu-
larly plied the Missouri, Mississippi
and Ohio rivers. From 1850 until the
Civil war the winding reaches of the
Mississippi resounded with splashing
paddle-wheels. Rivalry was intense
between passenger steamboat captains,
who engaged in races as dramatic as
those between clipper ships. Steam-
boats dashed past each other, furnaces
stuffed with tar and red-hot wood
bechling flames that lit up the night
skies. In one famous race, when fuel
gave out, stateroom partitions, benches,
and even fine furniture fed the boiler
fires of the winning ship.

"Although primarily a sailing packet
that used its sails most of the voyage,
and steam only part way, the Ameri-
can ship Savannah is generally credit-
ed with being the first steamship to
cross the Atlantic. In its wake came
a long line of ocean-going liners built
in rapid succession and culminating
in the present crown of modern mari-
time achievement, the Normandie."

Robin Disrupts Railroad

Chicago.—A mother robin interr-
upted a railroad's schedule here when she
selected a box car for her nest of four
eggs. A brakeman who discovered the
nest called his foreman.
"Switch the car to a siding," the
foreman ordered. "We can't disturb
that family."

REPORTER SHOT BY ATTORNEY

Shannon Cormack, Miami, Fla., reporter, was shot down in his office by
O. B. White, an attorney, when Cormack wrote a story of an inquest in
which White's name was mentioned. The wounded reporter is shown in
a hospital reading of his shooting. (Associated Press Photo)

Thomas E. Dewey Named by Lehman

Albany, N. Y., July 1 (AP).—A
fighting prosecutor, Thomas E.
Dewey, who placed "Waxey" Gordon,
beer baron and racketeer, behind the
bars, was named today by Governor
Herbert H. Lehman to wipe out vice
and gambling in New York city.

The governor in a letter to Dis-
trict Attorney William C. Dodge of
New York county, asked that Dewey
be appointed to the post which was
declined by four prominent attor-
neys. The "request" is virtually an
order as the governor already has
warned Dodge to name a man chosen
by him or face the possibility of
ouster proceedings.

"I confidently rely upon your com-
plete cooperation in effecting my
purpose to have a thorough and
complete independent investigation,"
the governor wrote. "I beg to refer
again to my letter of June 24 in
which I advised you of my purpose
of instituting a concerted and
vigorous drive to curb and stamp
out the various types of organized
crime existing in the county of New
York, and to your acceptance under

date of June 25 of the procedure
outlined by me.

"The four men from whom I sug-
gested you chose a special prosecutor
—Charles Evans Hughes, Jr., George
Z. Medaille, Judge Thomas D.
Thacher, Charles H. Tuttle—all have
announced that they are unable to
accept appointment. I therefore
now ask you to appoint Thomas E.
Dewey . . . to carry out the pur-
poses described in my letter and
again in my order convening an
extraordinary term of the Supreme
Court."

In New York city, Dewey, a for-
mer assistant United States attorney,
said last night he had not been in-
formed officially of the governor's
selection and refused to comment.
District Attorney Dodge also said
he had not received the letter and
would do nothing or say nothing
pending its arrival.

TWO SLIGHTLY INJURED AS TWO CARS COLLIDED HERE

Saturday evening cars driven by
R. J. Walker of Poughkeepsie and
Christopher Snyder, manager at the
TB Hospital, collided at Fair and
Franklin streets. Mr. Snyder was
slightly injured, as well as a woman
riding in the Walker car. Both cars
were slightly damaged.

Cottkill Church Fair
The Ladies' Aid Society of the
Cottkill Reformed Church will hold
its annual fair afternoon and eve-
ning of July 4. Ice cream will be on
sale at 5:30 o'clock. The menu is
as follows: Baked ham, creamed
potatoes, baked beans, lettuce,
tomato, cucumber salad, green beans,
potato salad, pickles, jelly, cake,
coffee, iced tea.

SEE THE REFRIGERATOR THAT
**MAKES ICE FASTER AS THE
WEATHER GETS HOTTER**

It's the NORGE
Rollator Refrigerator

• The magic of Rollator Refrigeration! A small, slowly
rolling mechanism with but three moving parts—almost
everlasting—powered to make more cold than you'll ever
need to chill foods and to freeze ice the hottest day in
midsummer—so perfectly made that it actually improves
with use—that's the famous Norg Rollator cold-making
mechanism. There's no other like it—and only Norg has it.

Choose Norg for its beauty; you'll find no more beautiful
refrigerator. Choose it for its convenience; it has every
feature of convenience you could wish. Choose it for its
economy; assets you Norg saves up to \$11 a month in
household expense. Most important of all, choose Norg for
year round, dependable, trouble-free Rollator Refrigeration.
See the Norg before you buy any refrigerator.

THE ROLLATOR—Smooth, easy, rolling power
instead of the hurried back-and-forth action of the
ordinary refrigerator mechanism. Refresh—more cooling
power for the current need. Only Norg has
the famous Rollator cold-making mechanism.
